

# POWERS FEAR DYNAMITE OUTRAGES

## REBELS PLAN OUTRAGES IN CONSTANTINOPLE.

**Sultan Warns the Powers of the  
Great Danger—Detectives Guard  
American Legation.**

WASHINGTON, Sept. 4.—Minister Leishman has called the State Department that owing to disturbed conditions in Constantinople, an additional detective force had been stationed at the American legation. This action was taken on the suggestion of the Turkish Government, which has assured the American Minister that it will use every precaution to protect all foreigners, but has warned the different embassies and legations that it would be well to strengthen the force around the buildings.

In case a necessity develops it is probable that the Turkish Government will be requested to allow the United States to send a detachment of marines from the squadron which is expected to arrive at Beirut to-day. Minister Leishman has not yet made such a request of this Government. The United States has no authority to send a warship through the Bosphorus and would have to have the consent of Turkey and also that of other European powers to do so.

Minister Leishman, in his cablegram, informed the department that a number of Governments have landed marines in Constantinople for the protection of the embassies.

**QUIET AT CONSTANTINOPLE.**  
LONDON, Sept. 4.—No British marines have been landed at Constantinople so far as the Foreign Office is aware, but it is said if the embassies require protection, the Ambassador is empowered to call upon the commander of the British guardship for guards. The Foreign Office considers it probable that Russia and Austria have landed marines to protect their embassies as a result of the Porte's note to the Ambassadors warning them that Bulgarian agitators were projecting outrages against the embassies, legations

and public buildings at Constantinople. So far as the Foreign Office knows, Constantinople is quiet.

**FOLLOW RED FLAG.**

SOFIA, Bulgaria, Sept. 4.—Colonel Jankoff, the insurgent leader, with three lieutenants of the Serbian army, at the head of a band of 400 insurgents, with a flag flying, crossed the frontier Monday evening and passed the Turkish outposts unopposed.

General Zoutcheff, president of the Macedonian committee, in the disguise of a sheep dealer, also crossed the frontier. Captain Stoyanoff's band captured fifty Turkish soldiers at Rakovitz, about fifteen miles southeast of Sofia, August 31, took their arms and ammunition and proceeded to Metniskko.

A dispatch from Rila, forty miles from Sofia, says the date of the general insurrection has been postponed.

**FRENCH TO ACT.**

PARIS, Sept. 4.—It is authoritatively stated that in view of the growing disorders in Turkey a French fleet will be ordered to hold itself in readiness to proceed to Turkish waters. This determination followed the receipt of a telegram from the French Ambassador at Constantinople that it was desirable to have warships in readiness for all eventualities. Similar expressions have been made by Italy, Austria, Russia and Great Britain. The officials here expect the fleets will act together in case of a crisis.

**MARINES LANDED.**

WASHINGTON, Sept. 4.—Minister Leishman today informed the State Department that some of the European powers have landed marines in Constantinople. If the lives of Americans there become endangered the United States Government also will send a detachment of marines to Constantinople. Minister Leishman also stated that in order to protect the lives of the occupants of the American legation and the American Consul-General at Constantinople an additional detective had been added to the force there. He said he took this precaution because of the warning sent him by the Sultan that an uprising was feared.

arrived at Gletwitz, Poland, with six girls, who, it is alleged, he was taking to a convent at St. Louis with the object of fostering Polishism. He had an American passport, according to newspaper dispatches and papers showing he had studied for the priesthood. The man was arrested under a paragraph in the immigration law forbidding the enticing of young girls out of the country.

## CORTELYOU CALLS ON PRESIDENT.

OYSTER BAY, L. I., Sept. 4.—George B. Cortelyou, Secretary of the Department of Commerce and Labor, was the first caller on the President to-day. The Secretary came to Oyster Bay to talk with the President about an official matter that has been pending for some time.

As guests for luncheon were Assistant Secretary of State Loomis and Colonel and Mrs. Lafayette Young of Des Moines, Ia. Secretary Loomis went over some State Department matters upon which the President desired information. Colonel Young is editor of the Des Moines Capital.

## PROTESTS AGAINST THE TROOPS.

DENVER, Colo., September 4.—President Charles H. Moyer of the Western Federation of Miners has addressed a letter to Governor Peabody in which he declares that the conditions in the Cripple Creek district are not such as to warrant the calling out of troops. He declares that such an act by the Governor at this time is a violation of the law under which the executive is empowered to call out troops.

President Moyer says that the members of the federation in the Cripple Creek district will help to maintain order.

## WOMEN KILLED BY LOGGING TRAIN.

MARSHFIELD, Ore., September 4.—Mrs. Fannie Bickford and Mrs. E. O. Gibson were run over and instantly killed this morning by a logging train at the Daniels Creek Railway station at Kings Camp. The women attempted to get on while the cars were moving slowly, when one, missing her footing and in the fall grasped the garments of the other, taking her down under the wheels with her. Their bodies were badly mangled. Mrs. Bickford's husband was running the locomotive.

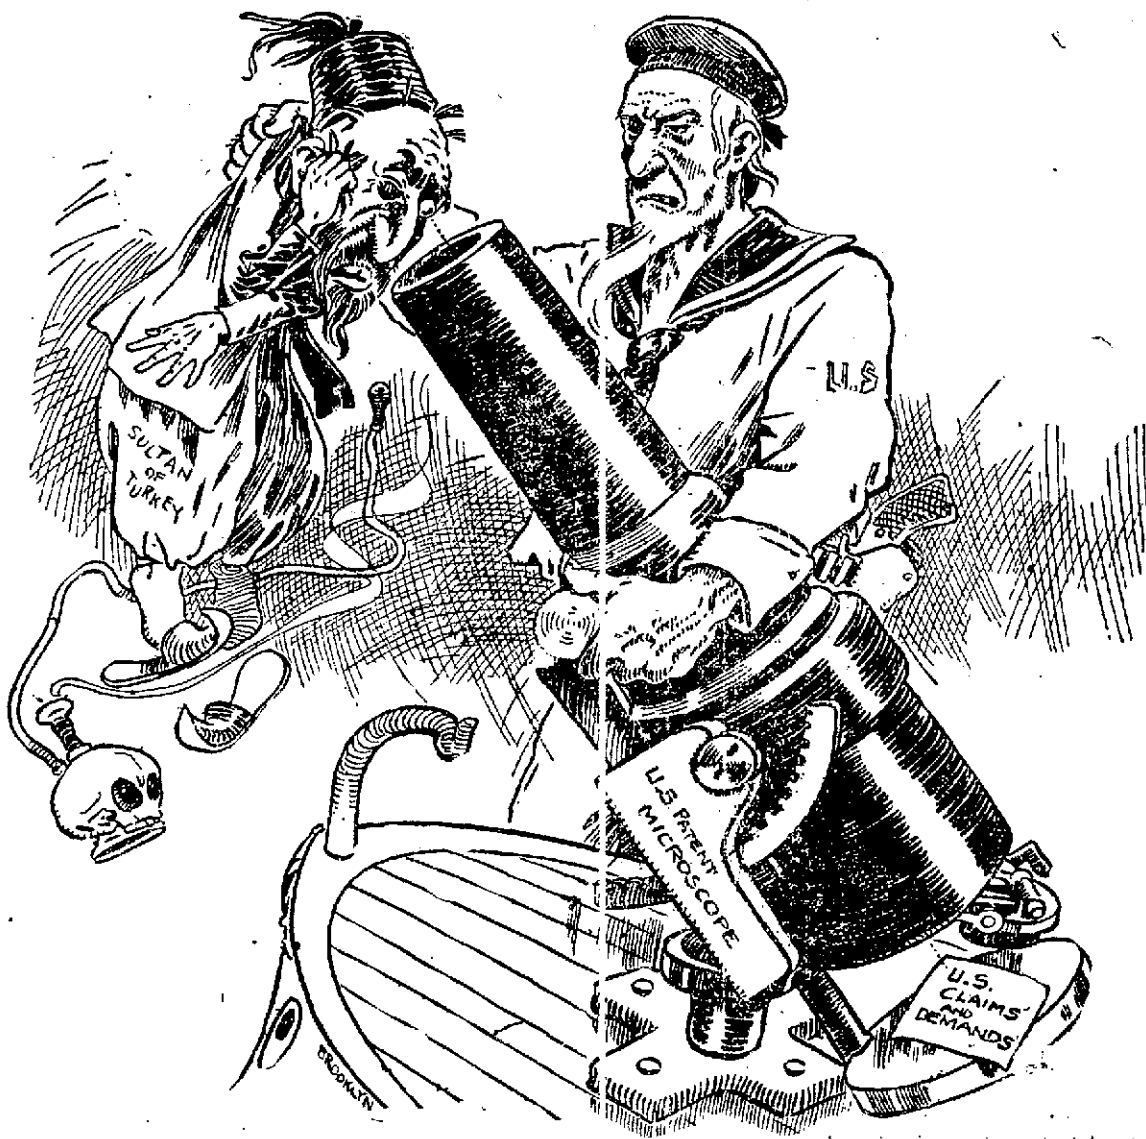

## AUTO BOAT RACE.

PARIS, September 4.—The Mercedes won the Paris-Deville automobile boat race. Time thirty hours and ten minutes. The Flore was second. Twenty-two boats finished.

## RECEIVED THE KING.

PARIS, September 4.—President Loubet received King Leopold of Belgium today at the Elysee palace.

## ARMY SOCIETIES MEET NEXT MONTH.

NEW YORK, Sept. 4.—The adjourned meeting of the Society of Army of the Potomac will be held in conjunction with the meeting of the Armies of the West at Washington, October 15th and 16th next. General Daniel E. Hughes will represent the society at the unveiling of the Sherman statue, and General John R. Crooke, the president, will respond at the banquet. The headquarters will be at the Ebbitt House.

## M'CHESNEY IS BEATEN IN RACE.

NEW YORK, September 4.—McChesney, the Western 4-year-old, was defeated today in a mile race by the Minuteman at Sheepshead Bay track. McChesney carried 122 pounds to the Minutemen's 90. The race was run in 1:38 4-5 almost record time.

## MANY KILLED.

**Four Hundred Insur-  
gents Mowed Down  
By Turkish Bullets.**

CONSTANTINOPLE, Sept. 4.—Consul Ravendall telegraphs from Beirut to Minister Leishman that the authorities there have been actively seeking the assassin of Vice-Consul Magelssen, but the Consul is not able to state if he is among the persons already arrested.

The United States cruisers Brooklyn and San Francisco are expected to reach Beirut to-day.

The report circulated by a news agency September 1st in the United States that a balloon bomb had been found near the palace is utterly without foundation.

Turkish official reports indicate the complete success of the military operations against the insurgents in the Klissura district. Over 400 insurgents are said to have been killed. The agent here of the Hungarian Levant Steamship line has gone to Burgas to investigate the three explosions which occurred Wednesday on the Austrian steamer Vaskapu soon after that vessel had left the port of Burgas on her way to Constantinople, resulting in the death of twenty-nine persons. The cause of the explosion is still in doubt.

It is now said that the assistant conductor of the sleeping car was the author of the bomb outrage August 27th when the daily express from Buda Pest was blown up near Kuleli Burgas and seven persons killed and fifteen others injured. He left the train at Philippopolis and has been arrested there.

The Sultan announces the gift of 50,000 woolen coats to the troops concentrated in Roumelia, and in an official note issued by the Prefecture of this city the population is invited to contribute flannel vests, boots, socks, etc., which are required by the soldiers in the field.

## MUNROE QUITS.

**He Refuses to Fight  
Jeffries Until Next  
January.**

NEW YORK, Sept. 4.—Jack Munroe of Butte, Mont., today refused an immediate fight with Jeffries, sending the following message to Manager McCarey of the Century Athletic Club, Los Angeles, Cal.: "Date too soon, will fight Jeffries in January. Not time enough to train."

## SOLDIERS PLANNED TO KILL.

**They Would Murder the  
Assassins of the  
Late King.**

**Forty-seven Officers Are  
Arrested At the Nish  
Barracks.**

BELGRADE, Sept. 4.—A number of officers of the Nish and other garrisons in Serbia, have been arrested in connection with the issuance of the proclamation demanding the trial by court martial of the conspirators, who were concerned in the assassination of King Alexander and Queen Draga and their ministry, and threatening to resign their commands if the demand was refused.

Later it was announced that a group of officers of the Nish garrison decided to kill all the conspirators concerned in the palace assassination and that many officers of other garrisons joined them.

It was intended to act at an early date, but the news leaked out and all the conspirators were arrested during the night. Forty-seven officers have been arrested at Nish alone.

## OFFICIALS ARE INDICTED BY JURY.

DENVER, Colo., September 4.—The special Grand Jury reported indictments against Charles W. Crouten, former State Auditor and W. C. Munsell, his chief clerk. Munsell is accused of embezzling some \$8000 of flat tax money and the auditor is charged with making no effort to collect this or to turn over other flat tax money which he collected. There are nineteen counts in the indictments.

## TRAINS ARE GUARDED.

ST. PETERSBURG, Sept. 4.—Every passenger train on the Manchurian Railroad is now accompanied by a detachment of soldiers and the whole line is guarded by sentries.

**Physicians Tell About the  
Last illness of  
Husband.**

SAN FRANCISCO, Sept. 4.—The official inquiry into the death of Martin L. Bowers, who died from arsenical poisoning on August 25, was begun before Coroner Leland this morning. Mrs. Bowers, the widow of the deceased, and her sister, Mrs. Sutton, both appeared at the inquest.

The entire forensic was consumed in examining the different physicians who treated the patient previous to his death. The general trend of the testimony showed that the sickness of the deceased was of a recurrent nature and that the attacks were reported at intervals of several days.

## TWO GIRLS MEET DEATH BY FIRE.

TOPEKA, Kan., Sept. 4.—Sarah and Gladys Hagan, daughters of Samuel Hagan, a Jefferson County farmer, fifteen miles northeast of Topeka, were burned to death last evening. The eleven-year-old girl of 10 years, had the younger to her arms and was fighting the fire with kerosene, when the can exploded, scattering the flames over the children.

# THE LATEST NEWS.

## NEGRO REITER GOES TO DEATH. FOLSON ESCAPES. ON THE TRAIL OF WOODS.

### Rather Than Face Mob He Drowns Himself. Requisition is Made to Have Desperate Men Returned. Detective Believes He Will Run Down the Fugitives.

KANSAS CITY, Mo., Sept. 4.—An unknown negro was caught this afternoon in the act of assaulting Miss Margaret Gerahn, a white woman, in her home at Armourdale, Kansas, a suburb.

He fled, chased by a crowd, and when he realized that escape was impossible, drowned himself in the Kansas river, jumping overboard from a row boat in which he was trying to gain the Missouri side. The negro had been in Miss Gerahn's house for three hours and had repeatedly choked her to make the woman give up her money. She probably will recover.

### GOOD LAW FOR ALIENS.

IF CONVICTED OF CRIME WITHIN THREE YEARS THEY ARE TO BE DEPORTED.

SAN FRANCISCO, Sept. 4.—Secretary Cortes of the Bureau of Commerce and Labor has just published a decision which will have an important effect on the immigration of aliens into this country.

The decision in substance says that any foreigner who within three years of his arrival in the United States shall be incarcerated in any prison or jail or be confined in any State or Federal institution shall be deported to the country whence he came.

### AFTER THE WHEELMEN

Ralph Burnett was tried by Judge Samuels this morning for violating the bicycle ordinance. It was charged that he did not leave the sidewalk free for passing pedestrians, but the evidence introduced did not convince Judge Samuels that Burnett was guilty and he was discharged.

The judge took occasion in his summing up to severely criticize the ordinance under which the arrest was made, and put himself squarely on record as favoring its amendment by a provision that would absolutely prohibit the use of the bicycle by wheelmen anywhere in the city, and his remarks were approved by everybody who heard them.

### ROBBERS ARE IDENTIFIED.

SAN FRANCISCO, Sept. 4.—John Smith, alias Meyers, alias O'Brien, and Dennis O'Brien, alias Meyers, the notorious criminals who were taken into custody last Wednesday on suspicion that they were the robbers who have been raiding various saloons and robbing their proprietors and patrons were positively identified to-day by Henry Elmers, as being the two men who held up his grocery store a few nights ago.

### SOLD WATER RIGHTS.

NEVADA, Cal., Sept. 4.—The Pioneer Pulp Company, and Towle & Brothers Company have sold to the South Yuba Water Company all their water and water rights canals in Placer county. The property includes large lakes in Lake Valley and Six Mile Valley, lake near Alta Station, water rights and canals from the north fork of the American river, Canyon Creek of the Bear river. The addition of this property to the South Yuba Company gives them an increased supply of water for use on their electric plants in Placer county. It is stated that additional works will soon be constructed to increase the capacity of these plants. The South Yuba Water Company is one of the largest water companies in the State. It has many reservoirs in the mountains, of which Fordsyce Reservoir is the largest. The combined capacity of these reservoirs is about sixteen billion gallons.

### FORM TRUST COMPANY.

Articles of incorporation of the Oakland Trust Company were filed with the County Clerk today. The directors are W. C. Moody, Oakland; Dudley Kinsey, San Leandro; J. B. Larkins, Alameda; E. J. McMullen, Oakland; and Charles H. Jones, Oakland. The amount of the capital stock is \$100,000, divided into 1,000 shares of the par value of \$100 each. Other subscribers besides the directors are John A. Jones, Elmer Co., Mrs. Mary H. Buck, Henry Hubbard, J. C. McMullen.

The bulk of tea and coffee and everything else is trash. Schilling's Best are both luxury and economy. Moneyback.

SACRAMENTO, Sept. 4.—District Attorney A. M. Seymour of this county this afternoon applied to Governor Pardee for a requisition upon the Governor for the return to this State of convicts Joseph Murphy and John H. Woods, who escaped from the Folsom Prison on the 27th of last July with a number of other convicts. Murphy and Woods are charged with murder, burglary and a number of other offenses. Murphy is also charged with jail breaking. Woods is not charged with the latter offense as he was serving a life sentence.

It has been intimated that the Nevada authorities would not deliver up to the agent of the State of California the two prisoners unless the reward of \$550 offered for the return of each of the convicts is paid in advance. This is somewhat of an embarrassing position for the Governor's office here to be placed in as there are no means for custody of the demand of the Nevada authorities in the event that such demands are made. It would be necessary for the State Board of Examiners to audit the claims of the captors of Murphy and Woods before they could be paid, which it is impossible to do to-day.

Notwithstanding the information that comes from Reno it is not believed at the Governor's office here that the Nevada authorities will insist upon the rewards being paid before turning the escaped convicts over to the California officers. Private Secretary Nye will communicate with the Governor's office at Carson City, Nev., to-day, to learn the exact condition of affairs and if no obstacles are put in the way of the desire of the Governor's office here to have Murphy and Woods returned to Folsom, the prisoners will shortly again be inmates of that institution.

### PLUMBERS ARE DINED AND WINED.

Last night, Messrs. Barker & Kinney, dealers in plumbers' supplies, whose place of business is at the south corner of Elizabeth and Franklin streets, gave a banquet at which all the master plumbers of the city, numbering between seventy and eighty, and ten of the firm's employees were the guests.

The gathering was held in the upper story of Barker & Kinney's new building, just completed at the northeast corner of Ninth and Franklin streets, and was intended as a house-warming of the new structure to which the firm soon intends to transfer its place of business.

Halahan the caterer supplied a feast of magnificent proportions. Champagne flowed freely while a string orchestra played inspiring overtures and a number of toasts were proposed and eloquently responded to by members of the firm and their appreciative guests. R. W. Kinney, secretary of the company, acted as toastmaster and displayed proficiency in the pleasant position.

### RESTRAINING ORDER IS MODIFIED.

SAN FRANCISCO, Sept. 4.—Judge Beatty granted the motion to modify the restraining order in the case of the Nevada, California and Oregon Railway Company against the Boca and Loyalton Railway.

The former's tracks intersect the Sierra Valley tracks at Beckwith, Plumas county, and it was a dispute over the crossing right of way that led to the matter being threshed out in the courts.

### ARE COMMITTED TO STOCKTON ASYLUM.

Miss Rebecca Beichen, living with her family at Fourteenth and Myrtle streets, was committed to the insane asylum at Stockton today by Judge Melvin. She was charged with recurrent mania, and it is said threatened the life of her sister Clara by choking her. She was accompanied by a trained nurse and her brother and sisters when in court this afternoon, but gave no outward indication of the trouble that necessitated such action. She is 45 years of age.

Mrs. Celia Cuzneanu was sent to Stockton Asylum today by Judge Melvin. Mrs. Cuzneanu is a resident of Elmhurst, been in the asylum at Stockton before.

### MRS. CROWLEY DOES NOT CONTINUE SUIT.

The matter of the guardianship proceeding instituted by Mrs. Ann Crowley to gain possession of the two children of herself and Dr. D. D. Crowley was set for hearing this morning before Judge Hall, but there was no appearance made on behalf of either of the parties and the case was continued until next Friday.

### URNS STAGE ROBBER.

SUISUN, Cal., September 4.—Joseph West was tried in the Supreme Court on the charge of burglary a few days ago and acquitted. He is now suspected of having robbed the Bartlett Springs stage a few months ago. Detective Becker says he has sufficient evidence to convict West of the stage hold-up. Search is being made for the man.

SAN RAFAEL, Sept. 4.—Although Dr. Woods and his wife are still at large, District Attorney Boggs is not discouraged and expects that Detective Dupue will sooner or later come upon them and bring them back to this place for examination in connection with the death of Colonel Best.

The detective, who left here several weeks ago in search of the fugitives, writes that one day Mrs. Clay Woods got up a picnic, which was attended by all the inmates of the house, with the exception of Dr. Woods, who, feigning heart trouble, remained at home. When the guests returned their trunks and effects had been ransacked, and many valuable items were missing. The Woods left hurriedly.

An instance of their coolness is related when Woods was arrested for grand larceny at Atlantic City. When accosted by young Best with a warrant for having stolen Colonel Best's effects, Woods pretended not to hear, but when he was yanked by the collar, he coolly heard the warrant read and replied: "Certainly, gentlemen—come right up and examine the stolen articles found, but this did not leave Woods, who invited Best and the officers down to dinner."

Detective Dupue is on a new trail and writes very encouragingly of his chances to apprehend the suspects.

A dispatch from Asbury Park, N. J., says:

"Dupue, the California sleuth, is hot on the trail of Dr. John D. Woods, in whose house Colonel Best died some time ago under suspicious circumstances. It is said that on several occasions Dupue has been almost on the back of his man. In a Western New York town he missed him by ten minutes."

"Woods, it is said, changes his name at will. He has been called by many names. The fugitive two weeks ago was traced to Asbury Park. There it was found that he had been under the assumed name, Dupue followed, but Woods fled. Dupue swears he will put handcuffs on Dr. Woods."

### MAYOR O'NEY TO SPEAK FOR OAKLAND.

Mayor Olney will appear in person before the Harbor Line Board, composed of United States Government engineers, at the meeting which is to be held in San Francisco to-morrow morning to consider the application of Southern Pacific to close up the north end of the estuary save with respect to a space of about 200.

At the meeting held under the same auspices one week ago, an adjournment was taken until to-morrow to enable the city to make whatever changes in their showing which they might consider necessary. In the absence of City Attorney McElroy, who is on his honeymoon, Mayor Olney has decided to appear and announce finally the city's position. At the same time he will oppose the request of the railroad company.

President Chamberlain of the Board of Trade said that the organization he represented saw no reason to amend its protest.

### SHORT SENTENCE FOR MURDER.

SAN BERNARDINO, Cal., Sept. 4.—Word was received this morning in a letter to Joseph Brown from Alamo, Mexico, of the conviction and sentence of Newton Brown of this city for the killing of Anton Swenson of Los Angeles several months ago. Brown has been sentenced to sixteen months imprisonment for "criminal carelessness" in causing Swenson's death.

Anton Swenson was a contractor, who was jointly interested with Brown in a mining claim at Alta. Newton Brown, several months ago he went to Nogales, Arizona, and thence to the mining camp in company with Brown and an interpreter. The three men were riding together in a wagon, Brown occupying the rear seat. Just before they reached the end of their journey, at Alta, the shotgun which Brown carried was suddenly discharged, the charge entering Swenson's body, inflicting fatal injuries.

Brown claimed that the killing was accidental, was later arrested and acquitted by the Mexican court on the first instance. The case was taken up by American residents of Alta and Brown was again arrested on the charge of murdering his companion. Testimony was introduced to show that Brown and Swenson had differences regarding their mining property.

## THE SCHOOL DEPARTMENT TO BE ATTACKED.

### Superintendent M'Clymonds Object of a Crusade Against the Board of Education.

It has long been known that internal strife existed in the School Department of this city. Such is the case with every institution where there are one or two subordinates constantly seeking the position of presiding head. At the same time it will have to be admitted that the School Department of Oakland, for the past ten or twelve years, has been admirably conducted; no fault has been found with the economical management; its standards have been as high as those of any city, and it has been remarkably free from scandal or criticism of any kind, and above all it has been tolerably well kept out of politics, and would have been entirely so but for the internal strife heretofore referred to. It is now threatened with complete demoralization and disruption.

It appears that a certain Mr. Megahan, a brother-in-law to the "Internal Strife," was practically suspended recently for insubordination, by Superintendent M'Clymonds and the Board of Education. That it should not have been done long ago is perhaps the only criticism that may be visited on M'Clymonds and the Board of Education. Now comes Mr. Megahan, who says that in a series of articles he is going to wipe Mr. M'Clymonds, as superintendent of the schools of this city, off the face of the earth. Through an agent in a published communication, Mr. Megahan, from the sanctity of his sanctuary, announces that he regrets that he is compelled to do it at this time when the School Department is about to make an attempt to issue bonds to improve the educational facilities of this city.

Mr. Megahan, in a previous published statement, says that he has incurred the wrath of Mr. M'Clymonds because M'Clymonds does not like Mr. P. M. Fisher, another subordinate in the school department, who happens to be the Mr. Megahan's brother-in-law. Perhaps if Mr. M'Clymonds exercised the same remedy upon Mr. Fisher that he exercised upon Mr. Megahan, peace, instead of eternal strife and intrigue, might prevail in the School Department of Oakland. It is an unpleasant duty to thus refer personally to members of the School Department, but a personal issue has been raised for personal reasons, and it is an issue that must be met.

Included in the threat to attack Superintendent M'Clymonds is a threat to "rip up" the entire School Department and precipitate an angry controversy on the eve of the submission of a bond issue to improve and enlarge the educational facilities of the city. While the threatened attack is ostensibly aimed at Mr.

M'Clymonds, the terms in which it is couched brings the entire Board of Education under fire. It is plain that it is proposed to impeach the conduct and management of the public schools during the past decade. Successive Boards of Education will necessarily be attacked in the campaign to promote general disorganization, from which it is intended that Mr. Megahan and his coadjutors will reap a personal advantage.

It is a scheme that should not be tolerated, not because of Mr. M'Clymonds particularly, but for the welfare of the School Department. The plan of attacking the superintendent involves a general attack on the School Board and the policy that has governed the department for years past. Mr. M'Clymonds is simply made to stand as a figurehead for the Board of Education and the policy pursued in managing the schools.

Mr. M'Clymonds is the Superintendent of Public Instruction of this city and he is there to stay until his term expires. If he is unfit or incompetent for the position, there will be a time to show that and before a proper tribunal, but to attack Mr. M'Clymonds at this time, when there is no reason for it on earth except that an insubordinate schoolmaster has been disciplined, is something that the people are going to resent, especially when that insubordinate threatens to tear down the whole educational fabric of the city, if he can.

We do not know what course Mr. M'Clymonds will pursue, but we trust he will not be tempted into a personal controversy with Mr. Megahan, or indulge in personalities in the public press. He can present his case before the Board of Education in the event of charges being filed. The thoughtful public will take care of the districts that are threatened through the newspapers.

It is unfortunate that a matter of this kind should be forced upon public attention at this time, but that cannot be helped. Mr. Megahan, with Mr. Fisher in the background, has thrown down a challenge to the School Board, and disagreeable as we find it, he and his grievances must be disposed of. The assumption that certain persons have proprietary rights in the School Department demands a categorical answer. Above all, chronic irritation—the fruit of jealousy, intrigue and self-seeking—must be removed, if peace and order and submission to constituted authority are to prevail in the schools. Oakland is something more than an overgrown village, and two wretched spies and intrigues, which have hampered the usefulness of the schools of this city for twenty years should be stifled. This town has become notorious for its "rag-chewing" propensities, and the perpetual display of small rivalries and petty ambitions in personal recriminations has made Oakland a byword and jest throughout the State. Let us have an end to the business; it is discreditable to the town, and now threatens serious injury to the School Department.

Mr. Megahan blames Mr. M'Clymonds for the action the School Board took in his case, and so he proposes to make charges against M'Clymonds before this same Board; charges which virtually constitute an attack on the members of the Board. Simultaneous with this, he proposes to publish in the papers a series of articles criticizing and assailing the management of the schools under the present and previous Boards. This program speaks for itself—as simply a newspaper crusade against the School Department, prompted by a personal grievance. If indications go for anything, the object of this proceeding is to encompass the defeat, if possible, of the bond issue for school improvements.

### TWENTY YEARS IN SAN QUENTIN.

LOS ANGELES, Sept. 4.—Walter Harvey was today sentenced to twenty years imprisonment in San Quentin. Harvey confessed to waylaying and robbing Casper Schantz, a teamster.

### STORY A FAKE.

LOS ANGELES, Cal., Sept. 4.—J. C. McCallum, president of the Arizona and Sonora Chamber of Mines, has sent the following telegram to the Associated Press:

"Nogales, Arizona, Sept. 4.—Associated Press Los Angeles: The story sent out from Arizona and Sonora, points telling of a battle between Tagali Indians and fourteen cowboys under Jose Diaz, in which six men were reported killed, is absolutely untrue. It is another one of the numerous fakes which, from time to time emanate from so-called correspondents."

It was hard luck pure and simple that lost the game for the Recruits yesterday afternoon against Portland. The local team played an errorless game and each and every member bated like hounds, making a total of sixteen safe aways, but it availed them nothing for Portland won by the score of 11 to 7. The Browns were not so far behind in the matter of good playing. Only one error was charged up against them and they made fourteen safe hits. Graham and McFarlan were the opposing pitchers.

The Los Angeles team has demonstrated repeatedly during the season that they can make more runs on fewer hits than any other team in the league. Their last demonstration was made yesterday afternoon against the Seattle bunch. St. Vrain did the twirling for the Seattle team and he allowed only seven hits, but the Angels made each one count and the result was that seven runs were chalked up to the credit of the batters at the end of the game. The best Seattle could do with Gray was five runs on six hits.

It took ten innings to decide the game at the Capital City yesterday afternoon in favor of Sacramento against San Francisco. The Senators obtained an early lead and maintained it until the ninth inning and would have won easily but for a costly error by Egan, which resulted in San Francisco making three runs and tying the score. Fitzgerald pitched for Mike Fisher's aggregation and did well, keeping the San Francisco sluggers at sea throughout the contest. Fitz' support at critical periods was very poor. Lindsey pitched his usual good game.

Nadeau, Portland's left fielder, now has a safe lead in the batting averages and is followed by his team mate, Van Buren. Dumbley is third on the list and is followed by Fletcher Joe Corbett. Dillon has fallen off badly and is now fifth. The latter has been picking up during the last few days, and will come to the top again before long.

GRAND BANKS FISHING TROUBLE.

NEW YORK, September 4.—Affairs are pretty serious here among the American fishing schooners, says a dispatch from Burgo, Newfoundland. The lack of bait and the certainty that the trip will be almost a dead loss has made many of the foreign fishermen quarrelsome. The squid, the usual bait for the Banks, have disappeared. At Grand Bank the sea is covered with dead caplin, which are useless for bait. As some of the American captains have left, the attitude of the foreign crews is reported to have grown ugly toward those who remain and serious trouble is feared.

CALIFORNIAN HAS HARD FIGHT  
WITH REAGAN AT ST.  
LOUIS.

Johnny Reagan of Brooklyn and Abe A. tell of San Francisco met last evening in St. Louis in a twenty-round contest for the 122-pound championship of the world. The contest, which went the limit, was one of the best and fastest ever seen in St. Louis and Attehl was given the decision, although it was the general opinion that Reagan was entitled to a draw.

Reagan was extremely clever at blocking and infighting, keeping Attehl guessing throughout. The latter tried time and again to break through the Brooklyn boy's guard, only to be repulsed. Reagan landed his left repeatedly and caused Attehl considerable trouble. For the first fifteen rounds Reagan had by far the best of it and Attehl looked like a beaten man.

The Californian came up strong in the sixteenth round and turned the tide in his favor. From this on Attehl grew stronger and Reagan weakened. In the nineteenth round Attehl rushed Reagan about the ring and landed hard rights and lefts. The twentieth and last round was even.

TELEGRAMS SENT TO ISELIN AND  
LIPTON SUGGESTING  
MATTER.

Efforts are being made by the California Promotion Committee to interest the big Eastern yachtsmen in San Francisco bay as a place for holding yacht races. They maintain that the cup races could be sailed in a more satisfactory manner on the bay.

Telegrams have been sent to C. Oliver Iselin and Sir Thomas Lipton urging them to consider the possibilities of sailing a race on the San Francisco bay. Should they be willing to consider the proposition a handsome trophy cup would be forthcoming.

The committee hopes for a favorable reply from Lipton as it is known that he is contemplating a trip to the Pacific Coast.

Norton was elected chairman of the Field Day Committee for the third consecutive year. This is the first time in the history of the league that any one has been accorded the honor of being chosen three years in succession.

WALTER BACHELDER  
PROVES AN ALIBI.

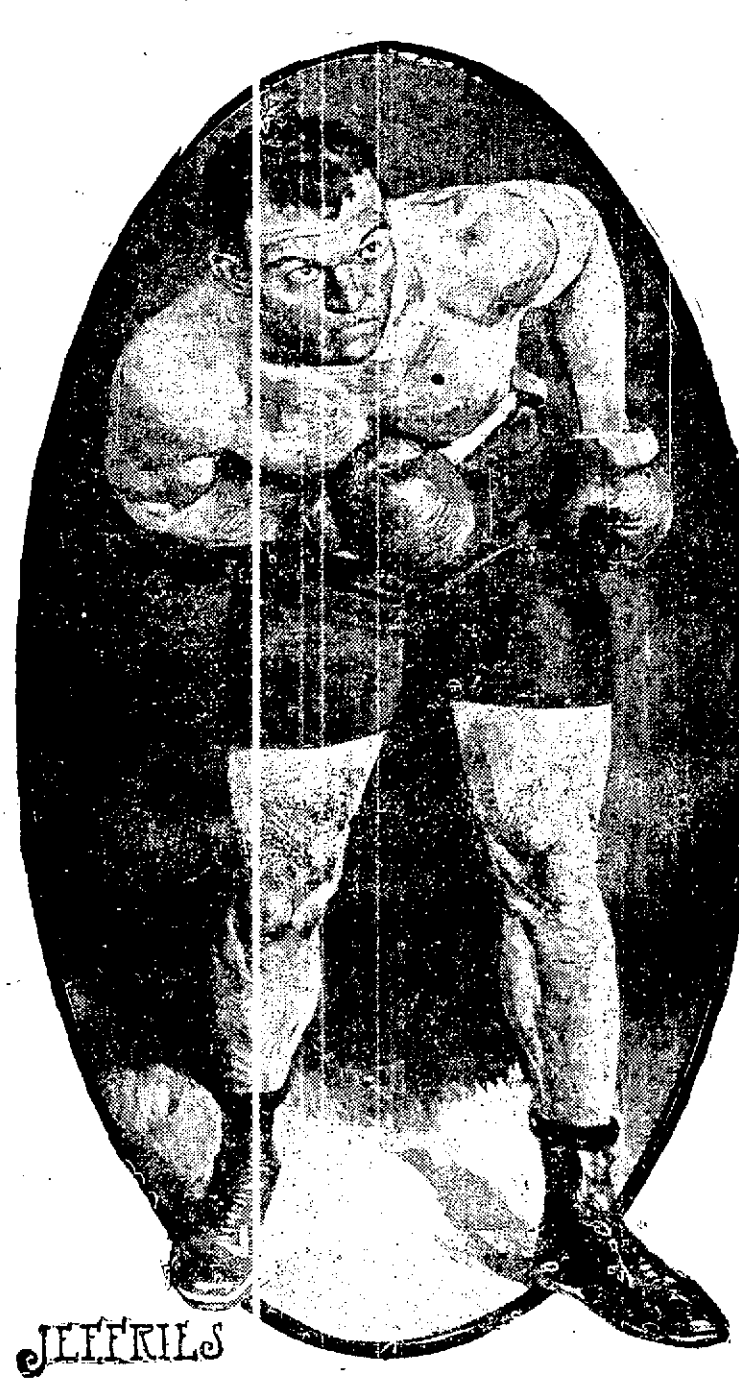

The preliminary examination of Walter Bachelder of Elmhurst on a charge of arson which destroyed the barn belonging to Mrs. S. Silva, was concluded today in Justice of the Peace Casey's Court and resulted in his acquittal. Miss Marie Silva, who had testified that she was seized by Bachelder and told to keep quiet when she ran out of her house at the outbreak of the fire, qualified her statements on cross-examination by saying that she had believed it was Bachelder who had seized her, though she imagined it was he only from the sound of the voice, as she could not see his face.

BOTH MEN TRAINED TO THE  
HOUR.

Both Frankie Neil and Billy De Coursey are in the finest possible condition and are now awaiting the sound of the gong which will send them together for their twenty-round contest before the Century Club of Los Angeles tonight. Neil will enter the ring at about 116 pounds, while De Coursey will just make the limit of 122 pounds.

De Coursey will have Kid Solomon, Billy Madden and Edly Manning in his corner and Frankie Neil expects to have Billy Delaney and Jim McDonald in his corner. Delaney is a warm friend of De Coursey, and for that reason has deferred against acting in Neil's corner, but the latter has been insistent and Delaney will probably yield. McDonald is the well-known umpire and a great admirer of Neil.

Frankie Neil is a strong 10 to 8 favorite in the betting and there is no De Coursey money to be found anywhere. No one expects the fight to go over eight rounds and both will have plenty of admirers in the audience.

BIG RELAY RACE.  
OAKLAND WHEELMEN WILL RACE  
25 MILES AGAINST GARDEN  
CITY TEAM.

Among the other athletic events which are scheduled for the big Labor Day celebration at San Jose there is to be a twenty-five mile relay race for wheelmen in which are entered the Garden City Wheelmen and the Oakland Wheelmen. Both teams are evenly matched and there has always been considerable rivalry between them.

The local riders have been training assiduously for the event and will send their strongest team to compete with the Santa Clara valley team. The prize for the event is a silver cup valued at \$50 and the local men will use every effort to capture it.

GASOLINE FREIGHT BOAT.  
CHICAGO, September 4.—Two-fold interest attaches to a vessel built in Chicago and just sent on its first trip across Lake Michigan. The boat is the Grace J., the smallest freighter on the lakes, and the first gasoline freight ship ever given attention by the United States inspectors at Chicago. It is believed to be the only freighter of its kind entered on the list of the United States inspection service. It was built to enter the Great Lakes between Chicago and Milwaukee ports. Sever Johnson, builder and owner, had charge of the thirty horse-power engine when the boat puffed out of the Chicago river, bound for Manitowish.

SIG. HART WANTS TO MATCH  
BUDDY RYAN BEFORE RE-  
LIANCE CLUB.

Both Billy Otts and Tony Irwin have gained considerable prestige by the great fight they put up before the Reliance Athletic Club last month and Eastern managers are beginning to turn their heads in this direction for good matches and make inquiries about the two young fighters.

Yesterday Eddie Smith, the well-known manager of the Reliance Club, received a letter from Sig Hart, the veteran Chicago pugilist. Hart has a very promising youngster whom he believes is a coming lightweight champion. He is William Ryan, better known as "Buddy" Ryan.

Chicago, August 27, 1903.  
"Ed. Smith, Oakland, Cal. Dear Sir: Kindly let me know if there is a chance of Ryan meeting Tony Irwin or Billy Otts at the Reliance Club in the near future. Note Ryan's record: Yours, S. G. Hart."

The record referred to is given on the letterhead, and shows that Ryan has the following list of victories to his credit: Tony Irwin, 8 rounds; Clarence Forbes, 6 rounds; Andy Jany, 6 rounds; Jack O'Keefe, 6 rounds; Jack McClelland, 6 rounds; Young McWaters, 6 rounds; Young Bowers, 6 rounds (knockout); Willie Fitzgerald, 6 rounds; Kid Broad, 6 rounds.

MORE LIFE SHOWN  
ON COURTS.

COOLER WEATHER MAKES FAST-  
ER TENNIS PLAYING AT  
SAN RAFAEL.

The cooled atmosphere of yesterday put more life and vim into the tennis players on the San Rafael courts.

It was the second day of the men's singles and the result of the matches is that this morning Robert Whitney met Murdoch of Alameda and Grant M. Smith, who, with Whitney, represents the California Club in the winners, will meet the Southern California crack, A. E. Bell, in the semi-finals. A series of games which are to settle which of the four experts will hold this season's coast championship.

Yesterday Percy Murdoch put his remarkably speedy play to good advantage when he won two sets from A. C. Way, who is a Los Angeles player of no mean ability in the tennis courts. Murdoch's Southern California's glory was revived when A. E. Bell, in his match with J. Drummond MacGavin, put up by far his best game he has played during this tournament. The four extremely hard sets of this match excited much applause and proved both men to be tennis experts in the Smith-Cotter match.

Smith's peculiar twist service and strong net play made Collier an easy loser, though that gentleman net play was excellent also, as long as the valiant Smith would permit him to leave the safer region of the back court. The day were noticeable for the unevenness which seemed to mark most of yesterday's play. The only really fast match was the one just to Bell.

Yesterday's scores were as follows: Bell beat MacGavin, 2-6, 6-3, 6-3; Murdoch beat Way, 2-6, 6-3, 6-3; Whitney beat Routh, 6-0, 6-2, 6-3; Smith beat Collier, 6-2, 6-2, 6-4; Bell beat Relfo, 6-1, 6-2, 6-4.

The drawing result of the drawing for the matches to determine the champions in the women's doubles shows that some splendid pairs to be expected. Though only six teams have entered the ladies' championship doubles event, which takes place today, they are all good ones, and there will no doubt be some interesting play. The drawing resulted as follows: Miss M. Edwards and Miss H. Hotchkiss versus Miss G. Dobbin and Miss Frances Sutton; Mrs. and Miss Seymour versus Miss Vailieu and Miss Hunter; Misses Violet and May Sutton a bye; play winner at Edwards-Hotchkiss-Dobbin-Sutton match, Misses Relfo and a bye; winner of Seymour-Vailieu-Hunter match.

Misses May and Violet Sutton, the present champions, will be compelled to play through the tournament, as there is no challenge cup for the event.

NAPLES MUSEUM ROBBED.  
ROME, September 4.—The Museum of Naples has sustained a robbery which while not important in itself, illustrates the ease with which an object of great value might be stolen from the institution. The thief or thieves, boldly pried open the door of the museum, and carried away a number of snakes, which were of gilded bronze, were of no great artistic value. The cup itself fortunately was uninjured. The cup stands on a pillar under a glass case, which revolves in order to better display the cup. The marvel is that one or more of the objects of incalculable value which the museum is filled with were not carried off by the thieves.

SUBWAY EXTENDED.  
NEW YORK, September 4.—Excavations have begun in lower Broadway for the extension of the Rapid Transit subway from City Hall Park to the Battery. When completed this extension will make a continuous ride possible beneath the surface from end to end of Manhattan Island when the subway opens for business. Owing to the great crush of traffic in Broadway, precautions not thought necessary in other sections have been taken to carry on the work with the least possible disturbance on the street surface.

GLUEMAKERS' STRIKE.  
CHICAGO, September 4.—Two hundred and fifty glue makers have gone on strike at the factory of Armour & Co. for a minimum wage of \$2 a day. The workers have a set scale of \$1.50 a day, but the company is alleged to have hired boys at \$1.37 to take the experienced men's places. When it refused to discharge them the other employees walked out.

BIG COLORED HEAVYWEIGHT  
WAS FOUND GUILTY OF  
VAGRANCY.

After Sam McVey meets Denver Ed Martin on September 13, he will return to the little town of Oxnard and will return to private life for the space of six months. During this time he will be out of the sporting world. McVey is not going into retirement from choice, but at the express request of the justice of the peace at Oxnard.

McVey was arrested several days ago on the charge of vagrancy and he was tried behind closed doors yesterday afternoon. He was promptly found guilty, and sentenced to pay a fine of \$200, with the usual alternative of six months at the county rock pile.

His manager, Billy Ryals, has posted the sum of \$500 as a guarantee of McVey's appearance in the ring on September 13, so arrangements were made whereby McVey gave bail pending an appeal. This was merely done to stall off the execution of the sentence until after his contest with Martin, and then McVey will take the enforced rest from pugilistic life.

# CIRCUS PARADE NEW PASTOR FOR TRINITY. PERSONAL AND SOCIAL

RINGLING BROTHERS WILL GIVE TWO SHOWS IN THIS CITY.

Saturday, September 5th will be Ringling Bros. circus day. The enjoyment will begin with the grand street parade, the largest and most magnificent ever organized. It is well known here that no circus even approaches the free street display given by Ringling Bros., always new, radiantly costumed and delightfully satisfying. Scores of wild animal dens are open, so that the public may see the wild creatures. These animals are the rarest specimens and physically perfect. The menagerie in its entirety is the most valuable collection of strange wild creatures in the world, and requires 108 cages, and dens to transport. Among its specimens, nowhere else to be seen in the entire world, are two giraffes, the last of their tribe; a rhinoceros, the only one in captivity; and a real baby elephant, not six months old, 30 inches high, and the only one ever born and reared in this country; and an enormous troop of forty elephants. To see these monsters in parade, gaily caparisoned, supporting richly covered thrones, upon which sit Indian royalty, dazzlingly bejeweled, and enwrapped and draped with the costliest fabrics of Oriental weaving, is a wonderful sight, and brings into sensational review the characters and customs of life in the far east. The soldiery of all nations is represented by correctly uniformed companies, equipped with the colors and glistening accoutrements of famous crack regiments. Elaborately carved and emblazoned tableau floats serve as stages upon which are depicted in magnificent allegory typical phases of national character and life. These living pictures are artistic creations, minutely presented, and idealize in charming form and color their world-wide subjects. Germany, England, Japan, Russia, Austria, France, Turkey, Scotland, Ireland, also United States are in the tableau gallery. Each picture is made further attractive by playing of characteristic music. The children are remembered by a special division showing dainty driving carts, miniature animal cages, illuminated flowers, and fairy land herons and heronets, and squadrons of conceited ponies, beribboned and curled. There are 650 horses with the great shows, and all of them appear in the street procession.

Rev. Clifton Macon is the new pastor of Trinity Episcopal Church on Telegraph avenue. He comes from San Francisco and already he is well liked in the local field.

gal tigers, a bi-horned rhinoceros, the only one in captivity, and many other animals, including forty trained elephants.

CHURCH LOSES HUNDRED THOUSAND.

NEW YORK, Sept. 4.—More than \$50,000 and perhaps \$100,000 is lost to St. Michael's Protestant Episcopal Church, according to the Herald, through forgeries and misappropriations by Henry T. Edson, who last Wednesday killed Mrs. Fannie Puton and himself. The money was last Monday for the purpose of authorizing an expert accountant to examine the books kept by Edson as controller of the church, and the threatened exposure is believed to have unbalanced his mind. Although the investigation has only begun, it is alleged to have been found that Edson discounted a note for \$25,000 purporting to be signed by the treasurer of the church, that he cashed several forged checks, and that he appropriated to his own use rents and voluntary contributions.

MOBBED FOR KISSING.

NEW YORK, Sept. 4.—Scores of infuriated women have beaten John Nulty, recently discharged from the navy, into insensibility in Madison square, because he attempted to kiss Fortino Lortio, a pretty girl of fourteen years.

Fortino, with her two sisters, was listening to the band playing in the park when Nulty came along.

"I'm going to kiss you," said he to Fortino and grasped her in his arms. The girl screamed for help, inspiring hundreds of women rushed to the scene. They rained blows on Nulty and finally felled him. He was kicked on all sides and his face was torn by sharp fingernails and handfuls of hair was torn from his head. Nulty cried for mercy, but the women gave no heed to his cries. They were about to kill him when he was rescued by a policeman. "We'll attend to him," they said, "and then we'll attend to you."

The cries of Nulty for aid had sunk to low moans when two officers arrived. After forcing their way through the crowd of struggling women the police found that Nulty had fainted. He was carried to the station and locked up.

Among the interesting animals in Ringling Brothers' zoological display this season is "Baby Bess," the only baby elephant born and successfully reared in America; two splendid specimens of the practically extinct giraffe; two horned horses, several Royal Ben-

HIS SUGGESTION THAT FRACTIONS BE ELIMINATED TURNED DOWN.

At the meeting of the Finance Committee last night Auditor Breed submitted the following upon the proposed tax rate:

"To the Honorable Finance Committee:—Gentlemen: I would respectfully suggest that you recommend to the City Council a reduction in the proposed tax rate from \$1.25 on each \$100 of assessed valuation to \$1.25. In figuring the tax extensions it is necessary for this office to make between \$0.00 and \$0.00 extensions, and on a rate such as you propose each extension would carry such odd cent fractions that it would necessitate and entail considerable extra labor and expense to the city. The rate can be reduced, as I suggest, without impairing the city's income or cutting down any of the aidments proposed to the different departments.

"I would suggest that the rate on the School Building bond Redemption Fund (district of 1897 not taxed) be made .04 instead of .045, and that the Bond Redemption Fund (district of 1894 and 1897 not taxed) be .04 instead of .045."

Supplementing the above the Auditor stated that the seven-tenths fraction would cause an additional expense in carrying out the extensions of at least \$500, whereas if the figures were even \$500, either \$1.25 or \$1.25, this amount could be saved. The committee decided against a change, and it is up to the Auditor to find speedy clerks to do the estimating within the sum which he said the office could be run for.

DAY OF PLEASURE.

NEW YORK, Sept. 4.—The majority of the members of the Fraternal Order of Eagles devoted themselves entirely to pleasure, taking a trip by steamboat up the Hudson, around the battery to the East River and thence to Coney Island. About 1500 persons made the trip.

RECEPTION HELD IN HONOR OF A LUTHERAN PASTOR.

The Rev. Theo. Barkus and wife of Trinity Lutheran Church of East Oakland, were tendered a reception last evening by the Young People's Society of the church.

President E. Benke welcomed the pastor, who has but recently been installed.

A short program was rendered after which refreshments were served.

The program was as follows: Piano solo by Miss B. Ruey recitation by Mr. G. Bussanich by E. Ruey Jr. The committee in charge of the affair was: Miss L. Scheidrig, Miss L. Wurz, Miss E. Zache.

OAKLAND CLUB.

The Oakland Club's first meeting yesterday was full of interest. Ezra W. Decoto, who has been acting as probation officer for the last three months, gave a report of his work during that time. His remarks were listened to with eager attention, as the ladies of the club, through whose efforts the probation law was passed, were anxious to learn just how successful the experiment has been. Mr. Decoto stated that the only two cases of first offenders who had been allowed to go on probation were doing very well.

Other in treating addresses were those by Mrs. F. J. Arnold Neaham, on the "Typical Florida Cracker," and by Mrs. Mary Mott on an "Ancient Southern Watering Place."

Mrs. Sarah E. Reaner, Mrs. Eleanor Gates Gully and Miss Cady also gave short talks.

The music program was in charge of Mrs. V. D. Smith.

PERSONAL.

Mr. and Mrs. Oscar Luning have returned from an extended summer outing near Cloverdale.

Miss Margaret Sinclair, who has been visiting her sister, Mrs. Henry Gilde, at the latter's home in Sacramento, has returned.

Miss Hess Pringle has returned from a pleasant sojourn in St. Helena.

Mr. and Mrs. Wallace Everson expect to leave shortly for Honolulu.

Mr. and Mrs. M. J. Layman have returned home from a pleasant visit to Santa Barbara and Los Angeles.

Mrs. Ruth Benjamin and daughter, Miss Benjamin have returned after a visit in Napa.

Theo. Gier has returned to Oakland after a short stay at his country home in the Napa redwoods.

A. F. Convey of Santa Cruz is visiting in Oakland.

N. Blackburn is visiting in Woodland.

B. C. Hughes of Colusa County has been visiting in Berkeley.

Mrs. Frank Steel and family of Colusa will make their future home in Berkeley, where the eldest son of the family is attending High School.

Mrs. A. Johnson of Colusa is visiting friends in Oakland.

Mrs. Charles Springle, who has been visiting in Marysville and vicinity, has returned to Oakland.

E. J. Williams is a guest at the Yosemite Hotel, Stockton.

CHICAGO LAUNDRIES RAISE PRICES.

CHICAGO, Sept. 4.—The laundry owners of Chicago have raised their prices on articles such as collars, cuffs and flannel, in the hope that they will be able to recover the amount lost during the recent strike of their employees.

The laundry business of Chicago has fallen off 30 per cent since the strike, and many small concerns have been forced out of business.

Acting through the Chicago Laundry Owners' Association, the laundrymen have issued new price lists, which have just gone into effect, and which are expected to add more than \$2,500,000 a year to the pockets of the Chicago laundries.

Cuffs have been raised from four to five cents a pair, and collars from two to two and a half cents.

COLORED PREACHERS.

NEW YORK, Sept. 4.—A committee of representative clergymen appointed by Bishop William L. Derrick, from the A. M. E. conference of the States of New York, New Jersey, Pennsylvania, Delaware, Massachusetts, Rhode Island and Connecticut for the purpose of urging colored people to follow President Roosevelt's advice and see that the criminal element of their race is suppressed, have recommended that all colored pastors shall deliver discourses on the benefits of honesty, sobriety, industry and morality.

The speech condemning lynching made by President Roosevelt and the declaration that "lynching is a crime against the United States," by Governor Durbell, Mr. Dean Richmond, Babbit and Justice Brewer are heartily endorsed.

EXHIBIT A BIG SUCCESS.

MERCHANTS' EXCHANGE MAKES AN EXCELLENT SHOWING AT SACRAMENTO.

The Merchants' Exchange of Oakland has scored a signal success at Sacramento. The exhibit made under its patronage of this organization will probably take first prize and is the best exhibit that has ever been made at a State Fair.

W. H. Wellby and Wilber Walker visited Sacramento yesterday in the interest of the Alameda County exhibit at the State Fair which had been collected and installed by A. D. Pryal and Craigie Sharp under the direction and with the assistance of Professors Hilgard and Wickson of the State University at Berkeley. They found the exhibit installed in the pavilion in a very satisfactory and complete manner.

There were on exhibit a very large and complete collection of plants, shrubs, grains, seeds and vegetables from the gardens of the University; also a rare and valuable collection of potted plants from the conservatories of the Realty Syndicate; a number of valuable plants from John Rock of the California Nursery at Niles; lemons and citrus fruit from Mission San Jose; a very interesting exhibit of beets and of sugar also an exhibit of salts; a large exhibit of leather of different varieties; an exhibit of gloves of various kinds a very interesting exhibit from the home of the adult blind; a large variety of honey, jam, jellies and pickles; also an exhibit of apples, pears, grapes and other fruits; a large exhibit from the Pacific Steel & Wire Company of East Oakland an exhibit of printers' ink another of soap; another of machinery also manufacturers of silk; a large exhibit of roofing and paint; satisfactory exhibit of gloves also coal and fire clay; kaolin, terra cotta clay, lime rock and manganese ore, all from Tesla.

The committee was well satisfied with the exhibit, especially considering the fact that it was gathered in seven days.

Special credit is due to John Rock of the California Nursery at Niles; the University of California; through the kindness of Professors Hilgard and Wickson and also Dr. Cross of Livermore for services rendered and valuable exhibits loaned. Many others have also rendered great assistance and put in place creditable exhibits and will receive the thanks of the Merchants'

MRS. DREXEL LOSES JEWELS.

NEW YORK, September 4.—Two jewels, the value of which is estimated at \$10,000, have been lost by Mrs. John R. Drexel, a prominent society leader, according to dispatches from Newport. One disappeared July 4 and the other August 14, but as Mrs. Drexel hoped to find them by quiet search, the matter was kept secret. Both jewels were necklace pendants—one a pear-shaped diamond surrounded by five other stones of rare color and the other a pear-shaped emerald.

RELIEF FOR SICK WIVES.

No. 211 North Limestone Street, LEXINGTON, KY., May 19, 1903.

Soon after my marriage I began to feel my health decline. My appetite failed me, I was unable to sleep and I became very nervous and had shooting pains through my abdomen and pelvic organs, with bearing down pains and constant nausea causing me much misery. The menstrual flow became more and more painful and I became a burden to myself and family, instead of a help and a pleasure. Wine of Cardui cured me within four months. I soon began to feel a change for the better and at the time of my next period I noticed a great difference. The pain gradually diminished until I was entirely well. I am stronger and look better than I did before my marriage and there is great rejoicing in the house over the wonders your medicine has worked.

Mrs. B. L. Quinn

WINE OF CARDUI

It is a serious thing for any young woman to undertake the duties of wifehood until she is in perfect physical condition. Her life and habits are entirely changed after marriage and weakness never dreamed of often develops. The excitement of an elaborate wedding often completely sets her nerves so that menstrual disorders result at the very start. It is then very easy to let the trouble run on until finally, aggravated by the new order of living, chronic menstrual troubles, painful as they are because complicated with bearing down pains, ovarian troubles and periodical headaches, Wine of Cardui cured Mrs. Quinn completely. No testimony can tell better than this letter of the thorough work that Wine of Cardui accomplished. Wine of Cardui offers the same relief to all women. There is no danger from suffering from an uncertain and risky operation which involves much danger at the best. Wine of Cardui relieves women from so much pain and is such a successful remedy for the ills and irregularities to which women are subject, that every woman should constantly keep it in her home. All druggists sell \$1.00 bottles Wine of Cardui.

## THE EMBARRASSING PROBLEM IN THE BALKANS.

The present trouble in the Balkan states is not merely a phase of the impossible conflict between the Christian and Moslem that has disturbed Europe for four hundred years and vexed diplomacy with a many-sided problem that has provoked many destructive wars. Beyond doubt a great deal of the present disturbance is created by armed bands of Bulgarians, Servians and Roumanians, who have entered Turkish territory for the purpose of stirring up revolt and armed resistance to the Ottoman Government. Those bands are distinctly predatory, and the guerilla warfare they wage is as barbarous and ruthless as the Turk in his most relentless aspects.

Thus we see Mohammedan mosques filled with worshippers down up by Christian bombs, and in revenge infuriated Moslems burn Christian villages and massacre their inhabitants. The Bulgarian bands blow up trains carrying Christian and Turk alike, and murder Christian officers in the service of the Sultan. They commit outrages on foreign residents and the consular agents of foreign countries, which they ascribe to the Turks in order to embroil the Ottoman empire with the Christian nations. The blowing up of an Austrian steamer is a specimen of their method of operations.

On the other hand the Turk is a cruel fanatic, a natural tyrant, and as great a foe to civil liberty as he is to religious freedom. He is a stranger and an interloper in the land, a conqueror and an infidel—he represents the social and political evils of the Orient, which he applies with rapacity and barbarity to a subject race whom he regards as accursed of God and inferior in manhood.

Outwardly the historic struggle for the expulsion of the Moslem has been renewed. In fact, the struggle is full of interior racial and religious antagonisms. The Balkan region is inhabited by many diverse people—all jealous of each other—belonging to different Christian sects—all hating each other. Besides the Turks and Christians, there are many Jews, who are abused by all, but on the whole are treated, better, perhaps, by the Turks than by anybody else. The Slavs hate the Greeks and the Bulgarians detest the Servians. The Roman Catholic Slavs of Bosnia and Dalmatia along the Adriatic coast are bitterly antagonistic to the Greek Catholic Slavs with Moscovite leanings. There are three different sects of the Greek Church in the troubled region—(1) those giving spiritual allegiance to the Procurator of the Holy Synod in Russia, (2) those regarding the Armenian Patriarch as their spiritual head, and (3) those who look to the Patriarch of Greece for their inspiration.

Thus blood, sectarian and political antagonisms cloud and complicate the situation. The Bulgarians have used the Greeks and Jews in Macedonia as badly as they have the Turks. On their part, the Turks have shown discriminating kindness in favor of the Jews and Greeks, save where the latter were engaged in actual sedition. Greece wants Macedonia in case the Turk must go back to Asia, and the Bulgarians want to annex a portion of the territory or extend the jurisdiction of Russia over it. It is the aim of Russia to not only seize Constantinople and the mouths of the Danube, but to draw under her dominion all the peoples professing the Greek Catholic faith. Apprehension of this makes the Greeks fear the growing power of the Moscovite more than the fading puissance of the Turk.

Interference by the Christian nations is a delicate matter because of the difficulty of adjusting the rivalries and religious antagonisms existing among the people with a desire to throw off the Ottoman yoke. If the anti-Turkish population was homogeneous or in harmony in political aspiration or religious belief the case would be different, but the situation is one of exceeding complexity as it stands. In a sense the Turks are keeping the Christians from flying at each other's throats.

Mr. Pulitzer's School of Journalism has proved a success at any rate in the matter of advertising the New York World.

There is one thing to be said in favor of the engagement of Miss May Goelet to the Duke of Roxburgh. While Miss Goelet has a fortune estimated at \$20,000,000, the Duke is neither poor nor dissipated. His great wealth and excellent habits, together with his high rank in the British nobility, forbid the suggestion of a mercenary motive. Evidently the Duke is not going to marry Miss Goelet for her money. On the other hand, Miss Goelet has refused several offers of marriage made by holders of glittering titles, and may therefore be absolved from the charge of marrying for a title. There seems no rational objection to international marriages, where titles are not traded for money, and where the alleged courtship is nothing but a bargaining about settlements.

## POLLUTING THE FOUNTAIN OF JUSTICE.

A good deal of levity has been inspired by a San Francisco Judge receiving through the mail a document purporting to be the last will of Charles L. Fair, who was killed with his wife in an automobile accident in France. There is nothing humorous about the proceeding, and there is no occasion for treating it as a joke.

Mr. Fair's attorneys declare the will to be a clumsy fake, and its contents are prima facie evidence of its spurious character. The provisions of the alleged will suggest the predatory purpose that prompted its manufacture.

This extraordinary document can hardly have any standing in court in view of the peculiar manner in which it was brought to the attention of the court, but its existence is proof of a conspiracy. If that will is a forgery, as there is every reason to believe, somebody is guilty of a felony, and the circumstances indicate that more than one person is implicated. That document was framed with a criminal intent. The names of the testator and the witnesses were attached for the purpose of defrauding the legal heirs of Charles L. Fair.

Instead of being a subject for mirth, this alleged will should prompt a rigid investigation. If possible, the person who mailed the document to Judge Murasky should be searched out and an explanation compelled. It is time the business of attacking dead men's estates on the strength of apocryphal wills and putative widows and children were discouraged. It has become an established industry, and it should be broken up. Our judicial annals contain some discreditable chapters relating to litigation over the estates of deceased men of wealth. The Jessup and Macdonald cases are examples of the manner in which dead men are supplied with hitherto unknown heirs by unscrupulous lawyers.

Has somebody got an heir in training to come forward as a claimant for the Fair estate? It is a property that seems peculiarly attractive to fraud, forgery and perjury. Who gets it does not matter generally to the public, but the punishment of forgers and perjurers is a matter of the highest importance. During the past twenty years a perfect cloud of perjury has enshrouded a number of celebrated cases in San Francisco, and the trail of the corruption penetrates every walk of life and every public avenue. The snake has got to be scotched sometime, and now is a good time to make an earnest beginning.

## THE HAMBLETONIAN TRADITIONS.

It is noteworthy that Lou Dillon, the California bred mare, should have trotted a mile in two minutes almost simultaneously with the publication of John Gilmer Speed's article in Harper's Magazine for September, denouncing Rysdyk's Hambletonian as an underbred horse with a bogus pedigree and vicious propensities. Mr. Speed's article was intended to explode the Hambletonian tradition which has been handed down through the breeders of Hambletonian stock. He discredits the Messenger strain in both Hambleton and Rysdyk's Hambletonian, and ascribes the speed qualities of the latter's descendants to the crossing with mares carrying the Henry Clay strain.

Lou Dillon is pre-eminently a representative of the Hambletonian blood. On both sides her descent traces back to Rysdyk's Hambletonian in unbroken streams. Whatever may have been the breeding of Hambletonian there is no question of Lou Dillon's descent from him on both sides of the house, with numerous quarterings in the family. It is true this wonderful mare has a strain of Henry Clay blood in her, but it is small in proportion to the double stream of Hambletonian in her veins.

The question is: Does Mr. Speed underestimate the purity and prepotency of the Hambletonian blood? In spite of everything he says, the fact cannot be gainsaid that the speediest trotting horse in the world today is this closely bred Hambletonian mare. Will Mr. Speed still content that the descendants of Hambletonian get their speed from their dams? Lou Dillon seems a rather hard nut for him to crack.

The Springfield Republican says Bryan is still strong enough to prevent the nomination of any Democrat that he deems obnoxious. That appears to be a correct statement of the situation. Mr. Cleveland's nomination is therefore out of the question, for he is too sagacious a man to go into a fight in which there was no hope of either nomination or election. Clevelandites, Bryanites and Gormanites all stand ready to whack David B. Hill, and both Bryan and Hill defeat Gorman. Who, then, can the Democrats nominate? Tom Johnson will be defeated for Governor in Ohio and that will end him as a Presidential quantity. Really there seems nobody in sight but W. R. Hearst and Judge Parker for Judge Gray emphatically says he is not a candidate.

## ISSUES FOR THE DEMOCRACY.

Senator Cullom, of Illinois, one of the most conservative and experienced statesmen in the country, says the Democrats cannot win on the tariff issue.

If they cannot hope to win on the tariff issue, what issue can they hope to achieve success on?

The silver question is exploded utterly and finally; it does not even command public interest and is without the vitality to provoke debate.

Not imperialism, surely. Nobody seriously proposes to relinquish the Philippine Islands or confer upon their ignorant and untrained inhabitants complete local self-government. For good or ill the great body of the American people is determined to give the experiment of civilizing and educating the Filipinos up to the standard of American citizenship a fair trial.

As Senator Cullom says, the trusts as a political issue are not available, for the decision in the Northern Securities case demonstrated that the law is sufficiently potent to deal with the trust evil in the courts.

What issue, then, can the Democrats conjure up as a pretext for their return to power? Apparently all they have to fall back on are the Postal Scandals, General Miles and the Bookers Washington dinner—a rag, tag and bobtail of two-penny issues redolent of Petroleum v. Nasty and the Confederate Cross Roads.

The first city directory ever issued in Oakland—thirty-four years ago—contained the interesting statement that "plans were being formed to secure a site for a magnificent public park." It appears that in one respect at least we have made little progress in the last thirty years. Plans are still being formed to secure a park site, but we are still where we were in 1869. At that time a site for a park could have been bought for a mere fraction of the cost today. Every additional year we put off securing land for a park increases the cost of procuring one. Yet it is universally conceded that Oakland must have a park.

Mayor Schmitz still holds to the opinion that the charter shouldn't count between friends. He is a great stickler for the charter, however, when it stands between his enemies and the public corn crib.

President Roosevelt traveled over the greater portion of the United States and mingled with vast throngs, including people of all classes and conditions, without being offered the slightest indignity or show of violence. His life was at last attempted by a demerolized young farmer living five miles away from the President's summer home. The attempt was evidently the vagary of a disordered mind. There was no motive behind it apparently. The incident illustrates the peculiar dangers which threaten our Presidents. This poor creature was led to offer violence to the President because he is President. It was the shining mark he aimed at, not because he felt any emotion of hate or envy or political passion, but simply because the exalted position suggested the idea of making him a target. So men occupying positions of power and conspicuous prominence encounter dangers other than those springing from malice and envy.

While Sir Thomas Lipton is coming in for a deal of feting and complimenting in the United States, and is to be presented with a costly silver service by his admiring friends on this side the water, all is not so serene for him back in England. He has not only lost the cup a third time, but he has complicated America rather too highly and too broadly to suit the British stomach. The English are beginning to recall that he is Irish. They forgot it for a time when they had hopes of his winning the yachting trophy, but all the bitter memories come back in the hour of defeat. All this made things bad enough, but Sir Thomas has thrown the fat in the fire for sure. At last he has done something really awful. He has raised the price of jam. This has stirred British sensibilities as the forest is moved by a tempest. Our British friends were disappointed before; they are angry now. They say Sir Thomas is putting up the price of jam to get back the money he lost in his yachting ventures. Thus the British stomach is taxed to pay for the defeat of an Irish boat. It's too bad. Too jam bad!

## The Falling of The Autumn Leaves

is a mute testimony to the fact that Fall has overtaken us. But it has not caught us unprepared as a visit will surely prove.

### New Headgear for Children

The fall styles of Children's Hats have just poured in during the past few days. Some of the most fetching are made of silk, velvet or felt or combinations of these, and the effects are very stylish.

The new silk hats are priced from **\$1.00 to \$2.50**

New Velvet Hats **\$2.50 to \$4.95.**

New Felt Hats **\$1.50 to \$4.50.**

At **\$1.25**—Swell hat with silk brim and felt Tam o'shanter crown, trimmed with straps of felt and buckles; brown with pink and brown with blue.

At **\$2.95**—White felt hat; Tam crown and upper brim of white stitched felt with large bow of silk and felt; underfacing of white silk finished with frayed edge silk rouching.

At **\$3.95**—This is one of the most stunning hats that will be worn by young misses this Fall. It is a stylish combination of white felt stitched with black velvet and silk; brim of white felt stitched in black; Tam crown with plaited ruff; band of black velvet run through white felt banding; brim of white corded silk with plaited ruff of stitched felt.

### The Ribbon Section is Too Modest

It doesn't explain itself half as much as it rightly should be considering the wealth of satisfaction it holds for you. A few of its many good things are:

At **12 1/2c**—Another lot of that splendid all-silk taffeta, 4 inches wide, in all colors and black and white.

At **15c**—Same quality as above, 5 inches wide.

At **20c**—Lustrous satin taffeta ribbon, in all colors; a far superior ribbon than prices would indicate; 3 1/2 inches wide **20c**; 4 1/2 inches wide **25c**.

At **25c**—Black and white fancy stripes; taffeta ribbon; several patterns, 3 1/2 inches wide.

At **40c**—Fine quality of taffeta ribbon with hand embroidered dots; 4 inches wide.

At **60c**—Lustrous satin taffeta ribbon; hand embroidered dots; 4 inches wide; all colors.

### Tape Girdle—Special

The corset department announces the receipt of another large lot of those famous tape girdles neatly finished with ribbon bows. Colors are pink, blue, white, gray and black. Special price **50c**.

### Warm Wrappers for Winter Wear

The first lot of the new Flannelette Wrappers is here, and in plenty of time too. But there are some patterns prettier than others—choose while the best are here.

The housegowns are well made of fleece-back material, have yokes outlined with braid, large collar and are full of comfort, while yet stylish.

Prices, **85c \$1.00, \$1.25 and up.**  
Corset-lined Wrappers from **\$1.25 up.**

### Form-Fitting Non-apparent Bustles

These bustles and hip-forms are great factors in modish dressing. They are made in a variety of colors and in different sizes to meet the requirements of all figures.

The reasons why the Scott Perfect Form-Fitting Bustle and Hip-Form is the best made are:

Because it is form-fitting, invisible, light in weight, reversible, ventilated and insures a perfect figure.

Price **50c.**

### New India Silks

All shades are now here in the new India silks. These silks are very appropriate for draperies and cushion covers.

20-inch width **30c** yard

27-inch width **50c** yard

### Lace Hose Luxury for Ladies

At **25c**—The many improvements in the methods of manufacture and the increased daintiness of patterns make the 25c hose look as rich as the half-dollar hose of a year or so ago.

There are fully a score of lines at **25c**—each able to stand on its merits.

At **33 1/2c**—Novelties in black and white striped lace hose, vertical and horizontal stripes of various kinds.

Exquisite lines of new lace hose at **50c, 75c, 90c** and up to **\$1.50.**

## Correct Fall Costumes.

It is natural to look to THE LACE HOUSE for style in dress. Although the department is not as old as many it has rapidly won its spurs. The advance Fall and Winter ideas that it is now displaying are certainly calculated to maintain its reputation.

The new costumes are priced from \$16.50 to \$45.00. Three of the most popular-priced are:

**\$16.50**—Fall costume made of novel blue mixture with a dash of bright color here and there; 33 inch, tight-fitting coat; lap seams pockets; turn-over collar and cuffs; 7 gore panel front skirt.

**\$18.50**—Novelty suit in gray and white plaid; 33 inch close-fitted coat with velvet collar, full sleeves; jacket lined with gray satin seven gored flared skirt with lap seams.

**\$21.95**—Blouse suit made of brown mixture; jacket 38 ins. long; stole collar of stitched taffeta relieved with black braid; cape has fitted flounce; 9-gore flared skirt.

The Suit Department is showing some new lines of Misses' Tailored Costumes and Skirts. It is now prepared to stylishly clothe young ladies—even from eleven years to young womanhood.

### Fifty Patterns of Velvet Waistings

The following bulletin in regard to the strike situation has been posted in the men's headquarters:

"Street carmen are going to work in good spirits and working at normal speed. No men are going to work for the telephone company. Tacoma reports no sold feet and men are all at other work. Sacramento reports everyone is standing still. Portland and Los Angeles report no change in the situation. Fresno says everything is by the by. Fresno operators report that three of the old operators have quit the company, and may join the union. The Spokane operators are still out. No work. Spokane men report no change in the situation. There is no report from San Jose. The situation looks good, and we are sure to win, so stand firm and be true."

At the plasterers' meeting last night in Ketchikan, Alaska, the union was elected to act as an ally in the strike for the second division of the Labor Day parade. Each member of the union will be fined \$10 who fails to be in the procession. It was decided to hold a picnic consisting of a

She says: "She had nervous dyspepsia for several years and when it attacked came on she would go to a physician and get some relief up to last year when she had the Grip which left her weak and then her stomach collapsed and refused to eat anything but the very simplest foods. Soon she could not eat even those and for seven days she had no nourishment but raw eggs and milk and she was told by a physician that a change of air and some rest would help her. She went to a health resort but she would never get well and would probably die of consumption of the bowels."

"After a couple of years she called for some more Grape-Nuts and this time the amount was doubled and soon after eating it she fell into a sound, natural sleep, sleeping for several hours, something she had not done since her illness without the aid of morphine. She continued to use Grape-Nuts alone for one week improving rapidly all the time and then began to increase her diet at her returning strength and appetite made this possible."

"Four months from the time she first commenced the use of Grape-Nuts she became a comparatively healthy girl quite strong and working much better than she had done for years. She and all of her friends feel that she owes her life to the scientific food Grape-Nuts." Name given by Postum Co., Battle Creek, Mich.

## COURT ROOM IS STATE INSTITUTE

**PACKED.**  
**THROWN OPEN TODAY**

ANNIE ROSS ON THE STAND THIS AFTERNOON AGAINST WALKIREZ.

ANOTHER ACQUISITION FOR THE CITY OF OAKLAND.

Standing room at the trial of Victor Walkirez for the murder of aged Elizabeth Leroy is now at a premium. If a man leaves his place it is gone for good. As the days of the trial have gone on the crowd has increased in steady ratio until at the opening of the case this morning the doors of the courtroom had to be thrown open and people were standing and craning their necks out in the hallways. Numbers of colored people are taking an interest in the proceedings and there is a fair sprinkling of women present.

Court Stenographer R. S. Van Court went on the stand yesterday afternoon and is still on. He has been engaged in reading the confession taken down by him as made by Walkirez when he was lodged in the city prison here. Attorney Frank Herald and Theo. Peterson for the accused, are making what is said to be a hard fight for their client.

Every bit of testimony that can possibly be given a twist tending to show temporary aberration on the part of Walkirez is immediately taken hold of by his attorneys and the rope of evidence going in before the jury is interwoven with their theory of the case. Walkirez, himself, sitting there seemingly the least concerned of anyone in that crowded room and apparently as sane as the men who are to pass judgment on him is the only thing that negatives in one's mind the horrible details of the crime that the man was not insane who committed the deed.

Turning half way round in his chair he views the spectators with interest while the most damaging admissions made by him of his guilt are being given to the jurors. Apparently he is one to whom the story has become tiresome without the attendant results in case the charges be proved against him. Scan his face, however, for an indication of mental weakness and it shows one of brightness and intelligence.

The reading of the testimony took up the entire morning session and this afternoon the prosecution will put the star witness of the case on the stand. Annie Ross, the companion of Walkirez who saw the deed done, will be given in readiness for the morning session of the court but the reading of the confession lengthened out until the noon adjournment.

## MAKES CHARGES AGAINST RAILROAD.

NEW YORK, Sept. 4.—At a public meeting at Chautauqua, N. Y., June one year for 'extra legal services' and Wisconsin, in the course of an address made the following statement:

"The New York Legislature investigation of the Erie Railroad, reported that more than \$1,000,000 was spent in one year for 'extra legal services,' and that money paid to political bosses was charged to the 'Erie Rubber Account.'"

Governor LaFollette did not designate the year in which this money was alleged to have been used. Since the date of Governor LaFollette's speech the present management of the Erie Railroad Company has had considerable correspondence with the Governor upon the subject, the railway officials denying that under the present administration any such use of money had been made. Governor LaFollette, in reply to the communications of the Erie officials, wrote that the misuse of money to which he referred in his speech occurred in the year 1872.

WOULD PREVENT CROWDING TO DOCTOR THE OF RESIDENTS. CHICKENS.

North Berkeley Improvement Club Will Seek to Have a Building Ordinance Passed.

BERKELEY, September 4.—The practice in vogue in this city of crowding a large number of houses on limited ground space, in purely residence districts, was severely condemned at the regular meeting of the North Berkeley Improvement Club last night. As a result of addresses made on the subject by prominent members of the club, President Victor Robertson was authorized to appear before the Town Board of Trustees for the purpose of securing an ordinance regulating the erection of dwellings in the residence sections.

According to the discussion of the club members, there are certain areas in the city where a majority of the residents favor reasonably large ground spaces about the houses. It will be the purpose of the ordinance to protect the beauty of the residence spots by prohibiting the building of more than a certain number of houses on each block. It is not the idea to apply this rule to places that are rapidly building up for business purposes.

"Berkeley is peculiarly a city of homes," said President Robertson at the meeting of the club last evening. "We want to preserve its attractiveness by not allowing houses to encroach on one another in the residence districts. When a man puts his back to you it not only takes away the picturesque appearance that a particular spot may have but it causes the insurance rates to be raised. I think we can bring tremendous public opinion to bear on this question."

Arrangements were made to have M. J. Doyle, Supervisor of Manual Training in the San Francisco public schools, to give an address on the subject of manual training, under the auspices of the North Berkeley Improvement Club, before the Central Club, sometime in October.

E. J. Martin, who had been appointed to look into the question of the most feasible method of street sprinkling and the most economical system of street paving, tendered a report. It was Mr. Martin's opinion that the streets should be wet down at night, a time when the water is given an opportunity to sink into the macadam.

On the subject of street paving, Mr. Martin submitted a letter he had received from L. M. King, Secretary and Superintendent of the Merchants' Association of San Francisco. The letter, which was read before the club, was in part as follows:

I take great pleasure in replying, so far as I am able, to your inquiry for information regarding vitrified brick for street paving with special reference to its use in Berkeley.

When I visited a number of the principal Eastern cities in 1898, for the purpose of investigating municipal improvements, I paid particular attention to the pavements used there, and I soon became convinced of the value of vitrified brick as a paving material for certain classes of streets.

Vitrified brick occupies a position between asphalt or bituminous rock and basalt block pavements. It is not so slippery as an asphalt pavement nor so noisy as a basalt block pavement. If properly made, the bricks wear gritty instead of smooth, and this pavement is therefore well adapted for streets with light grades, upon which asphalt cannot be used. While not so durable as basalt blocks or even asphalt on streets with very heavy traffic, it wears well on streets of light or medium traffic.

It is easily cleaned and presents a very pleasing appearance to the eye.

**ADVANTAGES.**

One of the leading authorities has given the following as the advantages of this pavement:

1. Ease of traction.
2. Good foothold for horses.
3. Not disagreeably noisy.
4. Yields but little dirt and mud.
5. Adapted to all grades.
6. Easily repaired.
7. Easily cleaned.
8. But slightly absorbent.
9. Tearing to the eye.
10. Expediently laid.
11. Durable under moderate traffic.

If a good vitrified brick can be procured at a reasonable cost, I think such a pavement would be very suitable for Berkeley streets and would give general satisfaction if well laid.

I think the above will give you a general idea of brick paving. If there is any further information you desire and I can furnish it, I shall be happy to do so.

PROFESSORS ARE ESTABLISHING A POULTRY EXPERIMENTAL STATION.

BERKELEY, Sept. 4.—Dr. A. R. Ward and Professor E. W. Major, of the agricultural department of the University of California, who were appointed to carry out the poultry investigations as provided for by the Legislature, have taken all but the final legal steps toward securing a site for the station in Petaluma, where the experimental station is to be established.

Under the supervision of Professor Major, buildings will be erected and stocked with fowls upon which extensive experiments in feeding will be conducted by Professor Ward, who will also study the diseases of the birds.

Dr. Veranus A. Moore, professor of comparative pathology and bacteriology at Cornell University, is assisting Professor Ward in a preliminary investigation of poultry diseases. While it is too early for definite statements to be made regarding the investigations, the department declares that some of the poultryman's troubles may soon be ameliorated.

PERSONAL AND SOCIAL NEWS BRIEVITIES

BERKELEY, Sept. 4.—The members of the freshman class of the University of California will be tendered a reception at the First Baptist Church tonight. An enjoyable program will be rendered at the affair, which will be given for the purpose of allowing the young people to become better acquainted.

Mrs. F. H. Payne is expected to return soon from Waukegan, Illinois, where she has been visiting her parents, who were ill. Mrs. Payne is prominent in university social circles and her friends will be interested to learn that her parents have almost entirely recovered from their indisposition.

Mrs. Paul Needham is recovering from a severe illness.

Mrs. J. C. Schmidt has departed for a visit to Portland.

Omnia Euge and J. M. Rugg have changed their residence to San Francisco.

Loring Barker, a student of the University of California, returned from an extended vacation in Napa county.

J. E. Maddrell, a fellow at Lock Observatory, is visiting in Berkeley for a few days.

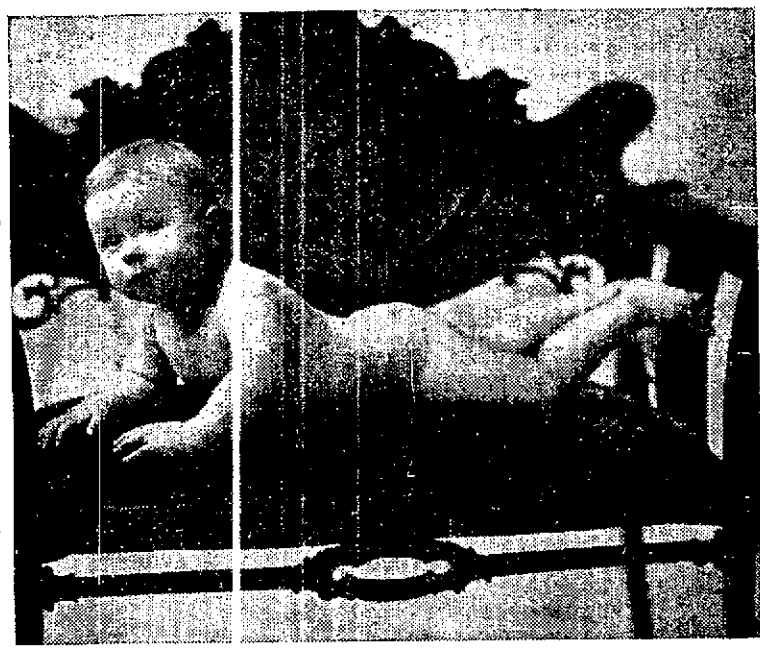

Fred Gowing, who graduated from the university last year, is engaged in mining in California.

C. R. Hunt of the class of 1905, University of California, has taken out a two years' leave of absence to engage in mining in Mexico.

STUDENTS DISMISSED FROM THE UNIVERSITY.

Collegians Who Are Caught Cheating Promptly Dismissed—Pres. Wheeler Issues Notice.

BERKELEY, Sept. 4.—"On account of dishonesty in recent matriculation examination two persons have been denied the privilege of the University—one a student of two years' standing, the other an applicant for admission, who otherwise would have been received as a student."

Such is a notice issued by President Benjamin Ide Wheeler of the University of California. It tersely tells the story of a scandal involving one of the best known young men of the University and a member of the incoming class. While the names of the offenders against the college law have not been publicly announced, the identity of the guilty persons is being speculated upon by the members of the student body, who are eagerly discussing the incident that has brought disgrace upon two of their number.

Every year the University authorities have more or less trouble in preventing "cribbing" at the entrance examinations. Students have been known to send other persons into an entrance examination, the paper containing the written test being handed in under the name of the person who wished to pass the "ex."

The prompt action of the University in expelling the offending students is being commended by the student body as a whole.

BERKELEY, Sept. 4.—At Letha Hall tonight two pleasing farces, "Miss Mary Smith" and "The Prince and the Page" will be given under the auspices of the St. Matthew's Episcopal Church for the benefit of the organ fund. The cast of characters for the plays are:

"Miss Mary Smith"—Charles Miller, a young lawyer, R. H. Merrill, Lilian, his wife, Miss Ora M. Stiles, Estelle Bertram, Miss Marie L. Weidner, Miss Mary Smith, a lecturer, Miss Ella Gibb, Fred Miller, Captain L. S. A. W. R. De Leon, Bridget, servant at Miller's, Miss Maria L. Weidner, an expressman, A. J. C. Bayley.

"The Prince and the Page"—Princess Chinchilla, Miss Marie L. Weidner; Mosey, Miss Ella Gibb; Prince of Astrakhan, R. H. Merrill; Ermine, a page, W. R. De Leon.

During the evening vocal solos will be rendered by R. H. Merrill and W. R. De Leon.

BERKELEY, Sept. 4.—According to the dispatches received from Niagara Falls a Berkeley woman may have taken her life yesterday in the treacherous waters at Terrapin Point. The only clue to the unknown woman, who deliberately crawled under the iron railing and then jumped into the water, is a candy box marked "Mason's, Berkeley," which she left behind. The box had contained her lunch consisting of two cheese sandwiches, a plum and a peach. A pocket-book containing 46 cents, a return trolley ticket to Buffalo, New York, and a black cape with a hood were also left behind.

Quarries at Mason's store failed to reveal any information that might afford a clue leading to the identity of the suicide.

BERKELEY, Sept. 4.—Next Wednesday, Admission Day, the Christian Endeavor Society of the First Congregational Church will hold its annual outing excursion on the bay. The cruise will be commenced from the foot of Washington street in Oakland, and after various points of interest have been visited about the bay, a landing will be made at Sunny Cove, Marin county, where luncheon will be spread.

Tonight the Christian Endeavor Society will give its annual reception to the members of the freshman class of the University of California. An elaborate program has been arranged for the occasion.

Allice Katharine Fellows informs mankind, through the Century Magazine, that New York City drinks 500,000 quarts of milk a day.

BERKELEY, Sept. 4.—A small bit of radium, one of the few pieces of the wonderful new element in existence in the United States, is attracting considerable attention in the physical laboratories at the University. The precious material, which looks like nothing more than a few pinches of purplish white powder, is encased in a glass tube carefully kept in a glass case.

During the winter it will be used in a number of interesting experiments. Considerable photographic work will be done with it through opaque objects. Its properties of making the air an electrical conductor will also be investigated.

**PREPARATIONS MADE FOR BIG AFFAIR AT FRUITVALE OCTOBER 3.**

FRUITVALE, Sept. 4.—Fruitvale Cadets are making great preparations for the festival they are to give on October 3 on the beautiful grounds surrounding the residence of Mrs. Henry Weather, at the corner of East Home street and Fruitvale avenue. Refreshments and other booths are to be erected on the lawn, and an amphitheatre under the long row of eucalyptus trees on the Fruitvale avenue side of the lot.

The affair is to be in the nature of an Oriental entertainment. It will be called "Shem el Hour, the Arabian word for 'outing.' The grounds will be illuminated with hundreds of incandescent lights, making a truly Arabian Night's Entertainment. Madame Caro Roma, the well known vocalist, has promised to lend her services. There will be some Arabian acrobatic feats by members of the Reliance Athletic Club of Oakland, and the Olympic Athletic Club of San Francisco. Scott Howatt, the monologist, has tendered his services, and the cadets will give a variety drill. The refreshment booths will be presided over by Fruitvale's prettiest young ladies.

**FIRE IN SATHER TRACT.**

A fire raged all yesterday on the Sather tract at East Fourteenth and High streets. The entire lot was burned over. Dozens of men and boys, with blankets, worked to beat out the flames. The occupants of the few scattered houses in the district kept their garden hose going to avoid any serious danger. No damage was reported.

Brush fires for a week past have ravaged the country round about Redwood canyon. They have reached far up the mountainside. For miles in every direction the country is burned to a tinder.

**BRUNETTE FACTORY.**

A brunette factory is being erected by the Pacific States Realty at its plant on Fruitvale avenue, near the tidal canal. The new plant will be in operation within a few weeks. The machinery necessary for the manufacture of brunettes, which is a new fuel, is now on the grounds and is being rapidly put into position.

**PERSONAL.**

Dr. and Mrs. J. S. Callen, of Fruitvale avenue, have returned from a visit with relatives in Auburn.

**JURORS ALL SELECTED.**

CHICAGO, September 4.—A dispatch to the Record-Herald from Danville, Ill., says:

The four jurors necessary to complete the twelve for the riot trials were selected late last night. Sheriff Whitlock is confident of the conviction of all fourteen. The defendant, John Thompson, submitting every juror challenged for cause to a rigid cross-examination.

**WILL REPORT FAVORABLY ON BERKELEY'S WATER SUPPLY.**

BERKELEY, Sept. 4.—The members of the Board of Health have authorized Health Officer Payne to report favorably to the Town Board of Trustees regarding the water supply of the city, as inspected by the Board during the early part of this week. At the regular meeting of the Board of Health last night the data taken during the trip over the Contra Costa Company's property was reviewed.

The guardians of the public health found that the Berryman reservoir had been recently cleaned out and cemented while the summit reservoir was found to be in excellent condition. In the Wild Cat Canyon, a pure supply of water was found to be emanating from the artesian wells, springs and tunnels of the company. It was ascertained that the water courses were inspected three times a week by a regular rider.

During the meeting of the Board, Health Officer Payne reported that the standard of milk that is served by various dairies in the city has appreciably raised since the inspection of the lactical fluid has been commenced.

**WILL DEBATE AFTER THE CARNOT METHOD.**

BERKELEY, Sept. 4.—During the coming term the Sophomore Debating Society of the University of California will discuss French subjects, under the rules laid down by the Carnot debating regulations. Under this method the definite subject for discussion is not announced until an hour before the time for speaking.

The Freshman Debating Society perfected its organization last night by adopting by-laws and electing the following officers: President, W. A. Durham; vice president, E. U. Bogan.

**WANT UNIVERSITY MEN IN SCHOOLS OF JAPAN.**

BERKELEY, Sept. 4.—President Wheeler of the University of California has been called upon to recommend teachers of English for the government high school in Japan. The request comes through Captain Fisher, a graduate of the university with the class of 1896, who is secretary of the Students' Young Men's Christian Association in Japan.

This far the university has sent thirteen men to take positions in the government schools in Japan. A. A. McKenzie, who was a graduate student last year, received an appointment during the summer and will sail for Japan during the latter part of this month.

**MRS. MOLINEUX DIVORCED.**

NEW YORK, September 4.—Counsel for Mrs. Roland B. Molineux has announced that the reports of his client having secured a decree of divorce in South Dakota are true. None of those connected with the case will say where the decree was issued. Beyond the mere confirmation, the only statement vouchsafed was that Mrs. Molineux will resume her maiden name.

**WHIST TOURNAMENT AT GOLDEN GATE WAS A LARGE SUCCESS.**

GOLDEN GATE, Sept. 4.—The ladies of the Golden Gate booth are being congratulated on the neat sum of money which they raised Wednesday by the whist tournament for the benefit of St. Columba's fair. The ladies desire at this time to express their thanks to Mr. Kennedy, who so successfully managed the affair.

As already announced the first prize, a cut-glass berry dish, was carried off by E. Delaney, who scored over 100 points. George McMenomy won the second prize, a carved tobacco-pouch. The prize winners were allowed to choose their own prizes from the assortment.

The success of the tournament was due to the efforts of the following ladies: Mrs. T. Torrey and her assistants, Mrs. J. O'Rourke, Mrs. T. Rourke and Miss Diekmann. The young ladies who kept score were: Miss Ada Ryan, Miss L. Le Ayden, Miss Caroline Ryan, Miss Celdey, Miss McCormick, Miss McClellan, Miss Diekmann and Misses Ella and A. O'Rourke.

**DEATH OF MRS. ARNOLD.**

The death of Mrs. Adam Arnold, who has for some time been ill, occurred yesterday morning. Mrs. Arnold leaves a child about eight years old. News of her death comes as sad intelligence to her many friends in this vicinity.

**IN PROPER HANDS.**

Little "Mosie" Lislelette will now, for the first time, probably, in his life, be placed in proper hands. Miss Whitney, the juvenile officer, will see to it that he gets in the right berth this time.

**H. B. EVERETT DIES.**

BERKELEY, Sept. 4.—Henry B. Everett died yesterday at his home, 2632 Marina avenue. He was 37 years of age and a native of Birchville, Nevada county. The deceased leaves a widow, Mrs. Kate F. Everett.

**SICK HEADACHE.**

Indigestion, Dyspepsia, Constipation, Biliousness, Heartburn, or Nausea can be quickly cured if you will only take Hostetter's Stomach Bitters at the first symptom. There can be no disappointment because it contains only those ingredients as will strengthen the stomach and cure these ailments. It urges you to try the next time your stomach gets out of order. **HOSTETTER'S STOMACH BITTERS.**

**ELMHURST CITIZENS ORGANIZE TO RID THEMSELVES OF FIREBUG.**

ELMHURST, Sept. 4.—The second meeting of the Improvement Club was held in Red Men's hall last night. The committee appointed to wait on the Contra Costa Water Company with a view of having fire hydrants stationed at different points throughout the district, asked for further time, which was granted.

The committee appointed to draw up a constitution and by-laws made its report, which was accepted. The by-laws provide for semi-monthly meetings, and an annual election, in January.

James J. O'Toole reported that he had, according to instructions, requested Sheriff Bishop to have an officer investigate the recent fires, which was done. It was decided to post a reward of \$250 for the apprehension of the incendiary.

Permanent officers were then elected. There were three nominations for president, James J. O'Toole, Henry B. Arnold and H. Olson, the former being chosen by a large majority. The other officers were elected by acclamation. The following were chosen: Vice-president, A. F. Linde; secretary, Chas. S. Alvord; treasurer, J. G. Clayton; sergeant-at-arms, Miss A. Matson. The president appointed the following executive committee: J. Faulkes, H. Arlett, M. Matson, H. Olson, A. Tideman.

It was decided to meet on the first and third Thursdays of the month in Red Men's Hall. The initiation fee will be \$1.00, and dues twenty-five cents a month. Twenty-five then signed the membership roll.

The secretary was instructed to draw up a petition, which will be circulated by the executive committee and presented to Supervisor Talcott, requesting that Jones avenue be repaired near the school house, so that next winter the children will not have to wade through mud and water to school. The executive committee was instructed to request the superintendent of the Oakland Transit Company to have the whistle at the power house blown every time there was a fire.

The committee was further ordered to inform the robber of Myers' grocery store that he had better leave town at once. A fortnight ago some one robbed Charles Myers of \$85 that was in the drawer of his store. The thief was found, and upon settling up and promising to leave the village, he was not prosecuted. Since then he has returned.

**PERSONAL.**

Frank Dellenbaugh, Henry and Al. Hansen left yesterday on a camping trip to Grange Lake, Tuolumne county. They expect to be gone a month.

Motorman John Crayon has returned from Antioch, where he was for a time foreman of a brick-yard, of which

**SAN LEANDRO PRESBYTERIAN CHURCH TO BE THOROUGHLY OVERHAULED.**

SAN LEANDRO, Sept. 4.—Work was commenced yesterday on the repairs to the Presbyterian Church. The church will be painted outside, all necessary repairs made, and the interior is to be thoroughly renovated and decorated. Over \$300 has been already raised to pay for the work, and the subscription committee is getting more every day. If a sufficient amount of money can be raised new walks will be built, and the grounds surrounding the edifice put in better condition.

**MACCABEES INITIATE.**

San Leandro Tent of Maccabees held a meeting in Masonic hall Monday evening and initiated a class of four members. Many applications were received during the evening, and another class will be taken into the tent next Monday.

Motorman Leonard is now superintendent.

Conductor Jackson has resigned his position with the Oakland Transit Company to engage in the livery business with his father, who has a stable on Telegraph avenue.

Sawdust and other mill waste is now used in paper making in Texas.

**HAYWARDS DRUIDS HAVE A BIG INITIATION AND BANQUET.**

HAYWARDS, Sept. 4.—The local lodge of Druids entertained the members of the grand lodge last night. It was one of the biggest social events ever given in Haywards.

Several candidates were initiated into the order, which showed the efficiency of the degree team, as the work was done with neatness and dispatch.

After the initiation, a banquet was tendered the distinguished guests. Remarks were made by the officers of the local lodge, Grand Noble Arch George Beck, of Livermore, and other grand officers, and Delegates Harry A. Cronan, of Elmhurst, Mr. Beck complimented the Haywards lodge upon its prosperous condition and the excellent work of the degree team.

Besides the members of the grand lodge, delegations were present from Elmhurst, Oakland, Alameda and Livermore, in response to a cordial invitation to take part in the banquet.

**DESTROYED TREE.**

Mary Azevedo appeared before Justice Frowse yesterday and complained that someone had destroyed a shade tree on her property on Grand avenue, San Leandro. She could talk nothing but Portuguese, so Attorney F. J. Lemos was sworn to act as her interpreter. A John Doe and Richard Roe warrant was issued for the arrest of the offenders.

**A NATIVE SON.**

Dr. Dean reports 21 births in the past week.

**FUNERAL TO-DAY.**

The funeral of John Munyon, of Chestnut street, was held this morning from All Saints' Church. Interment was in the Catholic cemetery. A large concourse followed the remains to the grave.

**MILL AND LUMBER YARD.**

Plans are now being made by business men of Haywards to erect a planing mill and lumber yard. It is expected that the mill and yard will be established on A Street, near the Agricultural works. D. Chisholm, one of the owners of the latter plant, is promoter of the new enterprise.

**PERSONAL.**

Mr. and Mrs. N. Nelson, of Pleasanton, visited Haywards friends the early part of the week.

Frank Fraters, accompanied by twenty-five Haywards boys, left yesterday for Calistoga, where they will pick prunes on the Kinball ranch. They expect to be away for several weeks.

Professor Beale, of Washington, D. C., who is making an official investigation of bird-life in California, and Otto W. Emerson, ornithologist, of Haywards, left yesterday on a tour of the southern part of the State. While

**EMERYVILLE, Sept. 4.—**Yesterday afternoon three cars arrived at the San Francisco, Oakland and San Jose power house. The cars were formerly owned by the California Railway, and were used on the old Leona Heights road. They will not be used to convey passengers over the new trestle to the syndicate ship.

**LAYING RAILS CONTINUED.**

The wooden piling which has temporarily been supporting the steel trestle was removed today, and the work of laying the rails in the subway was immediately resumed. One track has already been pushed down as far as the steel work, so the work will be finished within a few days.

**NOTES ABOUT TOWN.**

C. B. Macdonald, of Santa Rosa, has arrived with a bunch of runners. The best one is Crystal Point.

A. M. Bradley paid a visit yesterday to his old friend E. H. Morris. Morris and Bradley were formerly associated in business in Sacramento.

### FOR COMFORT OF PUPILS.

BOARD OF EDUCATION WILL HEAT AND VENTILATE HIGH SCHOOL.

At the special meeting of the Board of Education held last night there were present Messrs. Hardy, Knox, Robertson, Rogers, Wilcox and President Randolph. The only business brought before the meeting was in relation to the ventilating system for the High School building, and the following resolution was adopted by unanimous vote:

Resolved, That the Board of Education hereby make requisition on the Board of Public Works for plans and specifications for a heating and ventilating system for the High School buildings, situated on Twelfth street, between Jefferson and Grove streets, the same to be in accordance with "Conditions" to be complied with by bidders to furnish a heating and ventilating apparatus for the High School building situated on Twelfth street, between Jefferson and Grove streets, herewith transmitted and made a part of this resolution.

Following are the conditions to be complied with by the bidders in furnishing the apparatus provided for in the above resolution:

Bidders to submit plans and specifications for the work to be done that will show in detail the mode of installing plant, the apparatus and material to be used, the amount of air in cubic feet to be furnished each room per minute, the temperature to be maintained, and any other information that will assist the Board of Public Works and the Board of Education in determining the system to be adopted.

The plans and specifications are to provide for the heating and ventilating of all rooms above the basement floor, which are intended to be used as classrooms, including Assembly Hall and gymnasium, and for the heating of the halls on the first floor above basement. The principal offices, the teachers' rooms, the library and adjoining rooms.

Provision is also to be made in the halls of the first floor above basement for two foot warmers.

It is proposed to construct at this time only so much of the plant as can be installed for \$5,000. That part of the building to be heated by the part of the plant installed at this time is the part west of the Twelfth street entrance.

Contractors are to remove all old material and apparatus in the sub-basement not left in use for heating and ventilating purposes. Any old material removed which shall have been approved by the representative of the Board of Public Works, and that is in good condition may be used in installing the new plant.

Contractors are to leave the sub-basement and all school premises free from rubbish or debris.

Whatever apparatus is contemplated for the heating of the air, each bidder will

## ALWAYS TIRED NEVER RESTED

To be tired out from hard work or bodily exercise is natural and rest is the remedy, but there is an exhaustion without physical exertion and a tired, never-rested feeling—a weariness without work that is unnatural and shows some serious disorder is threatening the health. That "Always-tired, never-rested condition" is impure blood and bad circulation. Unless the body is nourished with rich, pure blood there is lack of nervous force, the muscles become weak, the digestion impaired, and general disorder occurs throughout the system. Debility, insomnia, nervousness, indigestion, dyspepsia, loss of appetite, strength and energy, and the hundreds of little ailments we often have are due directly to a bad condition of the blood and circulation, and the quickest way to get rid of them is by purifying and building up the blood, and for this purpose no remedy equals S. S. S., which contains the best ingredients for cleansing the blood and toning up the system. It is a vegetable blood purifier and tonic combined, that enriches the blood, and through it the entire system is nourished and refreshing sleep comes to the tired, never-rested, body.

## ROUTINE WORK OF COMMITTEES.

### CITY COUNCIL CLARS AWAY MANY MINOR DETAIL MATTERS.

The following routine work was done by the various committees of the City Council last night:

Assistant City Attorney William H. O'Brien advised the Auditing and Finance Committee in response to a request therefor, that fourteen claims against the city upon the various funds established by ordinance, for work done and material furnished could be approved. The Auditor having assured him there was money enough in the several funds to pay them without having to draw upon the funds of the present year, their payment was recommended.

Favorable recommendation was made upon the following:

Request of the Board of Health to print 500 copies of its annual report.

Claim of Philip Rade against the fund for \$55.10 for nineteen days' pay while sick.

Of the Board of Public Works for permission to purchase a new hand-sweeping machine.

Claim of George F. Rogers for \$3.37 for labor performed in repairing the city wharf.

Claim of F. Fubush for \$15 for services as helper in the battery room.

### STREET COMMITTEE.

A petition was received from the Piedmont Paving Company asking for an extension of sixty days for the improvement of Wood street between Sixteenth and Eighteenth streets. The committee recommended that the same be granted.

The petition of the Hutchinson-Rand company for an extension of 180 days for completing the paving of Telegraph avenue. They set forth that they cannot complete the work until the outfall sewer or Thirty-sixth street is completed. The committee recommended that the petition be granted.

The Piedmont Paving Company also petitioned for an extension of sixty days in which to complete the improvements on Campbell street. A recommendation was made that the petition be granted.

The petition of J. C. Westphal et al. for two manholes at Clay and First streets was considered and the committee decided to recommend that it be granted.

The petition of A. H. Irsed et al. to have Hawthorne street and College avenue graded, curbed and macadamized from Telegraph avenue to Broadway street. The matter was laid over.

Resolutions were introduced to have the Board of Public Works put in new crosswalks on Tenth avenue and East Eleventh street, Park avenue and Frederick street, and Park avenue and East Eleventh street. The committee recommended that the resolutions be referred to the Superintendent of Streets with request for him to take action.

O. B. Caldwell addressed the committee upon the matter of removal of surplus dirt on Adelphi street. Let there when the Adelphi street sewer was built. The street has not been macadamized between Fifty-eighth and Sixtieth. Property owners wanted the city to do the work, but they are now willing to do it themselves. The matter was laid over for the present.

The committee recommended that the Board of Public Works be authorized to remove trees and shrubbery in the lot of Bushrod Park at a cost not to exceed \$300.

### STREET LIGHTS COMMITTEE.

Reference to lights for Kings Daughters' Home, George R. Hancock suggested the placing of a light on the west side of the building, and the committee decided to recommend the same.

### FIRE AND WATER COMMITTEE.

In reference to a petition of H. B. Bancroft for a hydrant on a corner of Grove and Fifty-third streets Fire Chief Ball reported that in his opinion the hydrant was not necessary at this point.

The petitioner being present he was given the privilege to address the committee in regard to the matter and said: "About this matter I would say that we are improving this locality and that in the next few weeks we will be having the streets graded and reconstructed. There is absolutely no fire protection there at present."

Elliot—Is Grove street graded in that neighborhood?

Bancroft—All the streets in the neighborhood of these two blocks have been graded and I have paid quite a bonus to the water company to get them to lay a main.

Elliot—We generally take the Fire Chief's recommendation in such matters. Cannot you meet with him and convince him of your needs?

Bancroft—Well I can talk with him, but in the meantime there are five houses now being built with no fire protection.

Elliot—I think one plug should be placed out there.

This was concurred in by the rest of the committee and it was recommended that one hydrant be placed where the Chief should direct.

### PARK AND BOULEVARD.

The committee laid over the matter of instructing the City Attorney to procure a title to the land lying between Eighth and Twelfth streets, which was donated to the city by the Water Front Company for a park.

# BIG PILES ARE MANY UNIONS TO BE IN LINE.

MATERIAL PROGRESS IS BEING IMPOSING SPECTACLE PROMISED  
MADE ON NEW TURNABLE.  
BY UNIONS OF TOILERS ON MONDAY NEXT.

After several weeks of hard work the new turn-table now being built northwest of the machine-shop, is a step nearer completion. Wednesday the piles were driven, 117 in all. The concrete work is now going ahead rapidly. An enormous amount is needed and a low estimate places it at 250 barrels. The turn-table, in the first place, was built for the purpose of accommodating the big Baldwin engines. It is situated several hundred yards from the shop. The turn-table will not be completed for some weeks yet.

## CAULKING ON CAR-FLOAT GOES MERRILY AHEAD.

The caulkers on the new car-float have just completed half of their job. That is, they have driven 100 piles into the seams of the big barge. One hundred more must be driven in before the float will be ready for her initial trip. The work on the decking starts in this week, as all of the knees and braces are in.

## SEEN AND HEARD ABOUT THE YARDS AND SHOPS.

Max Witt has been advanced to the position of night captain of the car-float crew. He made his first trip Wednesday.

The "Transit" will put in at the shipyard for minor repairs.

Before going on his regular annual vacation Frank Merrill will make a trip to Alameda Peak, above Napa, in company with J. C. Johnston.

John Baker and George Triplett will make a trip to Napa next week and enjoy several weeks outing there.

William McVey, who has been accepted as a position as stage carpenter at the Columbia Theatre, has returned to his old position in the yards. He likes the surroundings here better.

George Harris and John Nethercott will leave for San Francisco today. They will put a new deck on the "Promontory" while there. It is probable that D. Morrissey, who superintended the caulkers of the vessel last year, will accompany them.

Paul Culver received a bad cut in the hip today while helping John Clifford drive rivets. The latter's hammer slipped, Paul got a gash several inches long.

T. J. Casey had off from work yesterday.

Jim Yost is back at work looking hale and hearty. He brought back with him several interesting pictures, which he has decorated the air-rooms.

Jerry O'Brien, who formerly operated the drill-press, has gone to Salt Lake.

Charles Mumm fell off the bow of the new car-float yesterday and came nearly breaking several ribs.

A gang of men is at work repairing drag-pit No. 1.

Tommy Cullen, machinist, is leaving for San Francisco tomorrow.

This evening quite a few of the boys under the lead of E. M. Felt, will go up to Sacramento to witness the U. R. R. D. trials to be held at the Pavilion, where the Liberty Company, 11, of which Felt is agent, will be giving the competing teams.

There will be three prizes, of \$75, \$50 and \$25, respectively. The boys will return Monday.

James Yost, who served his apprenticeship here, will return to the shops after an absence of two years. During that time he has worked in many shops, but returns to his old job with pleasure.

John L. Lynch, engineer, out at the air-pump house, will take a month's lay-off in the near future, for the purpose of visiting his family in Ogden.

In his absence Billy Newsome will assume charge of the engine, while Bill Polin will take the latter's place.

Patrick Noon, helper in the blacksmith shop, took a short vacation recently.

Passenger engine 1237 is over the repair shop for light repairs.

Passenger engine 1234 will get a new fire-box and a general over-hauling.

R. Abernethy had a severe attack of neuralgia yesterday afternoon, which necessitated a temporary lay-off.

## AGENT FOR MRS. CANNING RETIRE.

Many years' service as agent of the Canning office and store building at the southwest corner of Broadway and Thirteenth street, were brought to a close last night when William Yore, the incumbent of the office, was dined by the tenants of the place and presented with a certificate as a souvenir of the regard in which he is held by those with whom he came in immediate contact.

Mr. Yore retires to engage in other business. Recognizing his years of faithful service and the friendly feelings that had always existed between them, the tenants nearly all of whom are professional people, raised in about 15 minutes, a purse of \$100.00 and with this sum purchased a beautiful watch for Mr. Yore, a fine, heavy arm-chair upholstered in maroon for his home and some cut-glassware for Mr. Yore's helpmate.

Mr. Yore had no intimation of what was in store for him until he was led into the room of the Alameda County Medical Society in the building where he found his hosts in possession. He had under various pretexts, been detained by Dr. Theo. Olmsted.

The speech of presentation was delivered by Dr. T. L. Olmsted and the effort was neat, appropriate and eloquent.

Mr. Yore's feelings overpowered him but there was no doubt entertained of the appreciation which he felt toward these kind friends.

Among those present or represented were Drs. Olmsted, Milton, Baldwin, Sullivan, Deque, Morey, Miller, Kane, Hunter, Simmons, Rudolph, Mott, Green and Moore. Present also, J. J. McDonald, Mark McDonald, Lou Kerr, J. Cleary and Joseph Kentey.

Judge Greene returns. Judge W. E. Greene was in his court-room for a short time this morning. He has returned from his vacation at Bartlett Springs feeling better than for some time past. He will not, however, begin the hearing of his calendar until next week.

Final touches are being given the arrangements for the coming Labor Day parade which is to take place in this city, Monday next. Little remains to be done because the committee in charge has worked zealously for several weeks past and has accomplished a great deal. This was shown by the early date on which the line of march and the names of the unions which are to take part in the same, were published.

Many of the union members, unquestionably failed to study out the program carefully at so early a date. For their accommodation, therefore, the order of procession will be published again so that there need be no difficulty experienced by the several unions in ascertaining their right places in the line.

In this later publication, any inaccuracies which may have been discovered in the original one will be corrected. It is expected, however, that few corrections will be required.

The procession on Monday will be worthy of the aroused interest which the working people of this city are taking in unionism, for the purpose of improving and elevating their social, mental and financial condition.

The parade of this year ago was a fine one but it will pale into insignificance when compared with that for which the arrangements are now being made. There will be more bands in line, more unions in the formation, more floats illustrating the purposes of those unions and more uniformed bodies on the move than ever before.

The parade of this year ago was a fine one but it will pale into insignificance when compared with that for which the arrangements are now being made. There will be more bands in line, more unions in the formation, more floats illustrating the purposes of those unions and more uniformed bodies on the move than ever before.

Prior to last year, the finest display of union labor in Oakland was about ten years ago.

The showing at that time considering the number of the population of this city creditable in the extreme. It would have done credit, indeed, to a city twice the size of Oakland and men who took part in it have not ceased to speak about it since.

Many of those who have been scattered by various causes, some by death, but most by the bad times which followed and prevailed for a number of years as a consequence of which unions went out of existence and so many of the number of organized labor bodies in Oakland and vicinity could be counted on one's fingers.

With the revival of prosperity under the beneficent influence of a Republican administration devoted to the interests of the people, labor unions again sprang into life, increased and multiplied until, at the present time, it is difficult to name a class of toilers, numerous enough to organize, who is not represented here by a union established on a firm basis and with its members contented and happy in having work to do and being liberally remunerated for doing it.

The procession on Monday will attract an immense number of people to this city from abroad so that the heart of the town may be expected to present about the same lively festive appearance it did during the big parade on July 4th.

After the procession, which it is supposed will be concluded about 11:30 o'clock, there will be a gathering in Shell Mound Park where the parade may be reviewed and where there will be literary and musical exercises and dancing until 11 o'clock in the evening.

QUARTERLY PENSION DAY. The County Clerk's office was crowded today with the widows of and veterans of the Civil and Mexican wars who are entitled to pensions, this being the regular quarterly payment of the same. The pensions are mostly for service in the civil war while occasionally veterans of the Mexican and some of the Indian wars come in with their papers.

ROWAN GIVEN A YEAR. George Rowan, alias Charles Meyers, who, a few days ago, was sent back from the Lone Reformatory as incorrigible was sentenced today by Judge Elsworth to a year at San Quentin prison. Rowan was arrested for selling a bicycle and sent to the reformatory but committed burglary there besides other offenses until it was deemed necessary to send him back for severe punishment to the court from which he was sent to the school.

ADDRESSED THE ON DANCE FLOOR, LABOR DAY THE SHOT HIS TEACHERS. ASSAILANT.

RABBI M. FRIEDLANDER DELIVERS AN INTERESTING LECTURE.

Rabbi M. Friedlander of the First Hebrew Congregation addressed the teachers of the Oakland school department at the Common School Assembly Hall yesterday afternoon on "Ideals and Morals in Education."

In the beginning of his discourse the speaker dwelt on the fact that there was too much materialism in all professions these days. He said that the uppermost thought that now dominates any one entering on a career is the question of making money. This, he stated, was true of school teaching as well as of the other professions.

He then touched on the position held in modern society by the school teacher, stating that if more respect were shown her when she called at the homes of her pupils she could have much more influence in shaping the character and directing the minds of the children under her care. But instead of the mothers doing anything to aid the teachers in bringing about the best results in their children they did a great deal to lower the pupils' respect for their teachers by allowing them to make unkind criticisms without repudiating them.

As to the remedy of these defects in the education of today, the speaker stated that it was his opinion that the teachers could bring about great results by putting their own characters before those of whom they teach. He said that the pupils would unconsciously see that there are many better and higher things than the mere getting of money. Added to the influence of the teacher, the speaker pointed out the great influence which the proper home training could throw about the children. He said that the reason why the Spanish wars fought so bravely was because their mothers had taught them from early childhood that bravery and valor were the highest traits of character which the sons of Spain could attain to.

In closing his discourse Rabbi Friedlander stated that he did not believe that the teacher's duty was to preach little sermons on morals, but out of each lesson which they were called to teach they should bring out the points which would do the most to elevate the character of the child. He referred to the value of moral teaching to be found in history. If a story were told which would do the most to leave a lasting influence on their characters. The address was listened to with much attention and the speaker was enthusiastically applauded.

JUMPING ON AND OFF STREET CARS.

After an address delivered by Rabbi Friedlander at the Common School Assembly Hall yesterday afternoon, Superintendent McElmendorf addressed the teachers in regard to the school boys jumping on and off the street cars while on their way to and from school.

Mr. McElmendorf stated that since the Oakland Transit Company has found it necessary to put posters in its car windows to warn the parents of their children's danger, he thought it about time for the school department to do all it could to prevent the boys that attend the schools from taking the chances of losing their lives.

He advised the teachers to warn all the boys of the risk they were running and to do all they could to keep them from continuing this dangerous practice.

ARRESTED FOR MERCHANTS MAKE THEFT. PROTEST.

TRUSTED EMPLOYE AT SELBY'S IS ACCUSED OF CRIME.

CROCKETT, Sept. 4.—Thomas Christian, for nine years a trusted employee of the Selby Smelting Works, was arrested last evening by Constable Theo. Moller on a charge of grand larceny, preferred against him by his employers. He at once gave bonds in the sum of \$2,500, and was released from custody. The date of his preliminary examination, which is to be held before Justice O'Neil at this place, has not yet been set.

It is claimed by the Selby people that for some time the weights in the silver room, where Christian was employed, have been short and the managers of the works were unable to ascertain where the loss went. Detectives were employed and a close watch kept on all men employed in the handling of the silver. The result was, it is claimed, that it was learned that Christian was in the habit of disposing of silver in San Francisco.

When this fact was established Christian was placed under arrest. Christian has but little to say of his arrest, other than that he will be able to clear himself when the opportunity is offered. He comes of a good family and has always been highly respected both by his employers and his associates. The exact amount of the alleged thefts is not known, but he is charged with the stealing of between \$500 and \$600 worth of silver.

UNIVERSITY STUDENT LOST IN OCEAN.

SAN FRANCISCO, Sept. 4.—George Law, a student at the University of California at Berkeley, who resided with his mother at 89 Henry street, this city, was drowned in the ocean yesterday afternoon at a point opposite "Halfway" about a mile and a half south of Ocean Beach Tavern. Olin M. Boyle, a reporter on an afternoon daily, reading at 1710 McAllister street, tried his best to save the student, but he was drowned. The two young men had gone out for a swim and had swum out several hundred yards from the shore. When they were coming in, Boyle took the lead and when he reached the beach was surprised not to see his friend. He plunged into the sea and made a search for Law, but he was nowhere to be seen. The supposition is that he was caught in the undertow and sank soon after starting back.

The life-saving crew was notified and the life lost launched manned by a number of strong men, among whom was Billy Oles, the pugilist. Boyle, who was still in the water, clinging to a log, gradually losing his strength and had it not been for the life-saving crew he would have shared the fate of his friend. It is not likely the body will be recovered.

George Law was the son of the late Dr. Marshall Law, at one time rector of the University of California, who died of paralysis about two years ago at Clarendon, Texas.

George Law was a member of the class of '06 at the university, and was very popular with the faculty and students. His mother, two brothers and a sister reside here.

MRS. ANNIE KELLY DEAD.

Mrs. Annie Kelly, a native of Sweden, 45 years of age, died last night at the Union Hotel in East Oakland. The deceased had been a sufferer from dropsy for the past two years. The remains were removed to Taylor's undertaking parlors, where efforts have been made, without success, to communicate with the dead woman's sole relative, a daughter, Miss Marie Kelly, who is known to reside in San Francisco.

JOSEPH A. FRIETAS SENT TO HOSPITAL WITH BULLET IN HIS BODY.

Joseph A. Frietas, 288 Harlan street, was shot at 8 o'clock last night at Thirty-fourth and Peralta streets by Edmond Smith, a "nickel man" in the employ of the Sunset Telephone Company of San Francisco, residing at 1415 Irving street. Frietas was taken to the Receiving Hospital, where he bullet of a 38-calibre revolver was removed without much difficulty. The bullet had passed through his left arm, striking against a rib in his left side. The region of his heart. Had not the bullet struck his arm he would have been killed.

After the shooting Frietas was found at his home by Chief of Police Stokely and Detectives Holland and Quigley. He stated that he shot the man in self-defense, that he had a nickel in his pocket at 840 Peralta street that evening.

"We had just shaken hands," said Smith, when the Frietas brothers approached. Joseph Frietas said he was under his breath, spring at me, striking me a blow on the lip, which knocked me down. I got up on my feet, but the blow started at me again. Then I shot him. He fell and his brother ran away. Smith has a badly swollen upper lip, which is evidence of the blow he received from Frietas.

Joseph and Frank Frietas say that Smith and his brother had insulted them. That evening they met in Cooper's saloon, and seeing Smith and Burpee on the sidewalk, they went out to demand an apology. Smith opened fire. Frank Frietas states that Smith took a shot at him first and then shot at his brother. Smith claims to have been the first telephone employee to be assaulted in San Francisco since the liemen's strike began, stating that he was injured by a revolver or any other weapon. He admits, however, that the brothers had a grudge against Smith for reports circulated about the shooting. He said he had called them "greasers," a name that is synonymous with "dick" to one of his friends. He was taken to the hospital by Frietas brothers to demand an explanation and an apology, but before they could do so Smith began firing. The first ball missing Frietas, while the second passed through the coat of Frank and struck Joseph in the armpit breast, causing slight injury. Smith was found beside Joe's shirt. Smith was arrested and released on bond, but Frank Frietas says that Joe will charge him with assault with a deadly weapon, and do it today.

Lying on a cot in the Receiving Hospital this morning, Joseph A. Frietas told how he and his brother had been killed by a man ready with a gun. His story of the shooting is as follows: "A fellow by the name of Edmond Smith, I believe, I never saw him myself until last night, came to our house at 288 Harlan street a little while ago and asked for a girl. Her name is Georgina Marshall. She lives next door to us and he had got the wrong house. My younger brother went to the door and I suppose he must have taken him up kind of short, for he told a friend of ours that a big 'greaser' had come to the door.

"It made my brother pretty mad and he said, 'the next time I see that fellow I will make him take that back.' Well, last night we were going along 'Waits street' and had got to our house when we saw two men standing on the corner and my brother spoke up and said, 'I believe that one of 'em is that fellow I want.' I said to him, 'Well, wait by them and see.' Instead of that, the kid stopped right in front of them and said, 'What are you doing?' and he shot again, and the bullet to me right here (indicating the place on his arm)."

"Then the fellow spoke up and said, 'You had better get out of here, or I'll tell you I couldn't do anything now so he said to his friend, 'let's get out of here and they hiked off up the road. My brother was not hurt at all. The fellow shot at him right through his pocket and never waited to pull his gun. He had put when he shot at me and was only about twelve inches from me when he fired. I was pretty lucky, all right, and if it had not struck my arm, would have put a hole in my back."

"I guess that they were too much to the fellow. I hear that they have got him in the police station and I don't know on him. He has a pretty good pull, and I guess he will get off."

DISABLED STEAMER ARRIVES IN PORT.

NEW YORK, Sept. 4.—The disabled steamer Barbarossa of the North German Lloyd line arrived in port today under her port engine. Captain Menz says that on Friday, August 28, at 7 o'clock in the morning, the starboard engine became disabled and investigation showed that half of the propeller was broken. The ship was stopped, the outboard section of the shaft was secured and the steamer proceeded.

There was no excitement among the passengers as very few knew of the matter until afterward.

URGE GOVERNMENT TO LIMIT NUMBER.

BERLIN, Sept. 4.—In influential newspapers and magazines are urging the government to limit the number of foreign students entering the German technical universities, which are overcrowded. Out of a total of 14,628 students, 2423 are foreigners, of whom 10,000 are from Russia and there are a few Americans. Besides giving trade competitors the benefit of German knowledge, the promoters of the exclusion argue that the overcrowding prevents Germans from getting the best results from the instruction.

PROF. MEGAHAN'S STABBED BY AN OLD MAN. CLAIM. OLD MAN. SCENE.

SCHOOL BOARD DOES NOT TAKE ANY STOCK IN THIS THREATS.

SMALL BOY RECEIVES AN UGLY KNIFE WOUND IN THE CHEEK.

THEY WILL KEEP ORDER AMONG STRIKERS AT CRIPPLE CREEK.

Concerning the "enforced vacation" it is reported Professor Megahan was compelled to take as principal of the Peralta school, members of the Board of Education who were in attendance at the special meeting last night were general in their expression that the professor had no ground for complaint, because he had himself asked for the six months that was granted him. The professor, as the Board understands it, is interested in a mining proposition that will necessitate his absence from the city for some time, and may require him to go to England.

In conversation with the Board he expressed doubt about the sixty days he had first asked for giving him sufficient time to attend to his affairs, and it was then suggested to him that he could have a longer vacation if he desired it. He, upon he wrote and signed an application for a six months' leave, at the time saying that if the venture was as successful as he expected it would be, he would not care to return to school work again and would wholly sever his connection with the department.

Neither is the Board worried about the \$250, which Megahan claims is due him for the past six months. The Board also rolled up a total of \$53, but the First New Jersey team took first place by reason of having made the highest score at the longest range. The Sixth Massachusetts team will receive second prize of \$50, and the team of the First District of Columbia Regiment third prize of \$25.

NEW JERSEY TEAM WINS TROPHY.

SEA GIRT, U. J., Sept. 4.—A team of six men, representing the first regiment of the New Jersey National Guard won the trophy, a cash prize of \$100 and a medal for each team member, in the Inter-State regimantal team match, the driving in which was concluded this morning. Twenty-seven teams, representing the National Guard of different States, the United States Navy and the United States Marine Corps, competed. The winning team scored a grand total of 533 out of 600 possible points. The Sixth Massachusetts team also rolled up a total of 533, but the First New Jersey team took first place by reason of having made the highest score at the longest range. The Sixth Massachusetts team will receive second prize of \$50, and the team of the First District of Columbia Regiment third prize of \$25.

A little before noon George Smith, aged about 15, who lives on Myrtle street, was cut in the face by a knife in the hands of James Flannigan. The injured boy was taken to the Receiving Hospital where a few stitches were put in the wound.

Smith and a companion were passing along Ninth street. At the corner of Broadway, in front of the bonhock stand located there, his companion shoved him against Flannigan, who was sharpening his knife on a foot rest. The boy was told to stop his skylarking, but paid no attention to the order and shoved Smith again. This angered Flannigan, who is an old man, and he struck at the pair with his knife and cut Smith on the right cheek just below the cheek bone, inflicting a wound about three inches long from which the blood flowed in considerable quantity. The attack was a vicious one, the bystanders assert, although Flannigan alleges that the boy was pushed against the knife and that he did not strike with it at all. The boy was taken to the hospital where he was treated.
